I. Welcome

This little booklet is intended to be a resource that explains to you, the graduate student, how the Graduate Program in Religion operates. The Manual walks you through the Program, explaining every step of the way through to completion of the Ph.D. degree. You will find here information on fellowships, assistantships and other forms of financial assistance. There is also important administrative information of which you need to be aware including the day-to-day operational functioning of the Department. We hope that this booklet will help you map the terrain of your graduate studies.

David Hackett
Graduate Coordinator
May 2017
II. College of Liberal Arts & Sciences

About CLAS

The College of Liberal Arts and Sciences at the University of Florida is the largest college on campus, with more than 600 faculty members responsible for teaching the majority of the university's core curriculum to at least 32,000 students each year.

CLAS has more than 10,000 undergraduate students pursuing a variety of disciplines through its 37 majors and 48 minors. Additionally, nearly 1,800 graduate students are attaining advanced degrees in the college.

CLAS students also are among the top at UF, receiving numerous scholarships and awards for their academic performance. During the past several years, CLAS has produced a Rhodes Scholar, as well as several Barry Goldwater Scholars, Harry Truman Scholars and James Madison Scholars.

The college faculty rank among the best in the nation and have received a variety of national and international awards, including Guggenheim Fellowships, Senior Fulbright Awards, National Science Foundation Fellowships, Presidential Young Investigator Awards and National Endowment for the Humanities Fellowships. They hold memberships in the National Academy of Science, the Nobel Prize Committees, the Swedish Royal Academy of Sciences, and the Royal Societies of London and Edinburgh.

Who’s Who in CLAS:

Dave Richardson  CLAS Dean
David Pharies  Associate Dean for the Humanities [NOTE: Dean Pharies is our departmental liaison at the Dean’s Office]
Mary Watt  Associate Dean [NOTE: Dean Watt is the person in charge of matters related to graduate studies at CLAS]
Peter Waylen  Associate Dean
Ata Sarajedini  Associate Dean for Natural Sciences & Mathematics
Joseph Spillane  Associate Dean for Student Affairs (Academic Advising Center)
Margaret Fields  Associate Dean
Brian Harfe  Associate Dean (On-line and Distance Education)
Ryan Marsh  Assistant Vice President of Development and Alumni Affairs

III. The Graduate School

The Graduate School administration includes the Dean; a Senior Associate Deans; and Assistant Dean, the Graduate Council; the Graduate Faculty, and the Graduate School staff.

General policies and standards of the Graduate School are established by the Graduate Faculty as represented by the Graduate Council. Policy changes must be approved by the graduate dean(s) and the Graduate Council. The Graduate Catalog is only available online, at http://graduateschool.ufl.edu/academics/graduate-catalog.

The Graduate School is responsible for establishing, monitoring and enforcing minimum general standards of graduate work in the University and for coordinating the graduate programs of the various colleges and divisions of the University.

Graduate School Administrators:

Henry T. Frierson  Associate Vice President and Dean of the Graduate School
R. Paul Duncan  Senior Associate Dean of the Graduate School
Judy Traveis  Assistant Dean, Graduate School Administration
Jenn Hubbs  Associate Director, Data Management
Gann Enholm  Assistant Director, Graduate Research
Stephanie Nielsen  Associate Director, Accounting
Stacy Wallace  Assistant Director, Editorial Office
Bradley Osburn  Associate Director, Graduate Minority Programs
Emilia Hodge  Director, Graduate Education Outreach
IV. The Department of Religion

Founded in 1946, the Department of Religion is the second oldest religion department among America’s public universities and one of the strongest. We have a distinguished faculty, who together offer a rich and diverse curriculum to a growing number of students. Our undergraduate major examines religion as a significant and pervasive element in human culture. Emphasis on method and theory and religion’s comparative dimensions enables students to read and critically analyze current literature. The graduate program is designed to prepare students for careers in academia, public service, non-governmental organizations, and various forms of advocacy work. Our five areas of study include: Buddhist Traditions, Global Islam, Hindu Traditions, Religion in the Americas and Religion and Nature. The department is also home to several important initiatives. The Center for the Study of Hindu Traditions, established in 2005, is the only program of its kind in the nation to encourage the research, teaching, and public understanding of Hindu culture and traditions. The Journal for the Study of Religion, Nature, and Culture provides a forum for international research on religion and nature. The Center for Global Islamic Studies mission, in turn, is to deepen our understanding of the diversity of Muslim cultures and societies in the contemporary global context. Departmental faculty and students also participate in interdisciplinary programs across UF’s campus and beyond.

Who’s Who in the Department of Religion:

Administrative Faculty

James R. Mueller, Associate Professor and Acting Chair, jmueller@ufl.edu
David Hackett, Professor and Graduate Coordinator, dhackett@ufl.edu
Robert Kawashima, Associate Professor and Undergraduate Coordinator, rsk@ufl.edu

Administrative Staff

Annie Newman, Senior Secretary, annen1@ufl.edu
Scheduling, grading, registration, correspondence, reservations of rooms for events, Letters of Appointment, tuition waivers
The graduate program in the Department of Religion at the University of Florida is designed to prepare students for careers in academia, public service, non-governmental organizations, and various forms of advocacy work. Our five areas of study include: Buddhist Traditions, Global Islam, Hindu Traditions, Religion in the Americas and Religion and Nature.

The Department offers the (1) Master of Arts with thesis; (2) non-thesis Master of Arts; and (3) Doctor of Philosophy degrees.

Some applicants to our graduate program are very strong students whose undergraduate preparation was not directly in religious studies (e.g. Environmental Science, Latin American Studies, or Asian Studies). The non-thesis degree option is intended to strengthen the preparation of such exceptional students from other disciplines before they begin working on the Ph.D. in religious studies.

The department also offers a bachelor’s/master’s degree program allowing an academically advanced undergraduate student to take graduate courses before completing the bachelor’s degree and to count 12 graduate credits toward both degrees. Students admitted into a combined program will normally have above average GPAs and superior scores on the verbal, quantitative, and analytical writing portions of the GRE.

Areas of Study

Buddhist Traditions This PhD specialization builds upon the research interests and academic strengths of faculty within and outside of the Religion Department. Its main focus is on East Asian, especially Chinese, forms of Buddhism. The program aims at providing students with comprehensive knowledge about various aspects of Buddhist studies, including major texts, philosophies, practices, histories, languages, and institutions. It also addresses key issues associated with research method and theory, and situates Buddhism in relation to other religious traditions. Areas of specialization can include specific Buddhist texts or traditions, historical periods, religious practices, and issues or developments in contemporary Buddhism.

Faculty

Jonathan Edelmann has written on Hindu notions of self and identity, much of which is in conversation with Buddhist philosophy. He has taught key authors in the Indian Buddhist tradition such as Nāgārjuna and Śāntideva at the undergraduate and graduate level. Edelmann has also taught issues related to epistemology (pramāṇa) as debated by Indian Buddhists and the Yoga, Nyāya, and Vedānta schools.

Mario Poceski is a leading scholar of Buddhist studies and Chinese religions. Poceski’s most recent books are The Records of Mazu and the Making of Classical Chan Literature (2015), The Wiley Blackwell Companion to East and Inner Asian Buddhism (2014), Introducing Chinese Religions (Routledge 2009), and Ordinary Mind as the Way: The Hongzhou School and the Growth of Chan Buddhism (2007). His publications also include two other books and numerous articles and chapters on various aspects of Buddhist studies.

Richard Wang is a specialist in Chinese religion and literature, with a focus on late imperial China (14th to 19th centuries). He is currently exploring the intersections of Daoism and local society in Ming China and the religious dimensions of Ming novels. His teaching covers Chinese religion (especially Daoism), culture, language, and literature. His publications include The Prince and Daoism: Institutional Patronage of an Elite (2012) and The Ming Erotic Novella: Genre, Consumption, and Religiosity in Cultural Practice (2011).
Several faculty in related departments have research and teaching interests related to the study of Buddhism or Chinese religions, and have served on the committees of students specializing in Buddhism.

Ying Xiao conducts research and teaches Chinese culture, film, language, and media studies. She is also interested in the intersections of Buddhism and film, and is developing a course on that subject with Prof. Poceski. Her latest publication is China in the Mix: Cinema, Popular Music, and Multilingualism in Post-socialist Society (2017). Faculty and graduate students are also able to work with colleagues in other departments and programs, such as Anthropology, History, and Women’s Studies, to develop interdisciplinary research or collaborative teaching programs in various fields that incorporate the study of Buddhism.

Global Islam As one of the world’s largest and fastest growing religions, Islam exerts significant influence in politics, culture, and society across the world. Inherently global in nature, Islam is also represented by a rich diversity of Muslim peoples, cultures, and societies. The specialization in Global Islam aims at deepening our understanding of such diversity with an emphasis on contemporary aspects of Islam and Muslim cultures and societies. It approaches Islam as a lived religion and views it as deeply intertwined with broader social, cultural, political and economic processes. The specialization also pays attention to historical dynamics in Islam and offers students tools for understanding patterns of continuity and change. While situated within the discipline of religion, the specialization in Global Islam is interdisciplinary by design. It has particular strengths in the area of Islam in Africa and draws upon the Center for African Studies, one of the most recognized centers in the US. It is also affiliated with the Center for Global Islamic Studies as well as the Sahel Research Group and benefits from resources in the departments of Political Science, Anthropology, Sociology, Languages, Literatures & Cultures, History, Linguistics, and the Center for European Studies.

Through its focus on contemporary aspects of Islam, the specialization in Global Islam will prepare students for careers in academia, as well as in public service, non-governmental organizations, and advocacy.

Faculty

Terje Ostebo teaches in the Department of Religion and in the Center for African Studies. He is a leading scholar on contemporary Islam in Ethiopia/Horn of Africa and has written extensively on Salafism, Islamic reformism, and religious change in Africa. Ostebo has also done research on Islam, ethnicity, and identity, as well as state-religion relations in the Horn of Africa. In addition, he has conducted applied policy research and been engaged in policy advising on Islam in Africa for various government agencies. Ostebo is the author of Localising Salafism: Religious Change among Muslim Oromo in Ethiopia (2012), the co-editor of Muslim Ethiopia: The Christian Legacy, Identity Politics, and Islamic Reformism (2013), and has published extensively in leading international journals.

Gwendolyn Zoharah Simmons is a scholar of Islam and Muslim societies in the Middle East and in North America. Her academic focus is on Shari’ah Law, Women and Islam, and Modern Islamic Thought. She has also done research and writing on Islam’s development in North America with a specific focus on African American Islam and its integral connection with the African American struggle for civil and human rights. She is the author of Muslim Feminism: A Call for Reform (under review) and Islam Doesn’t Equal Fundamentalism (under contract with the New Press). Additional publications include “Muslim Women’s Human Rights in Beijing & Beyond,” “From Muslims in America to American Muslims,” “African American Islam as An Expression of Converts’ Religious Faith and Nationalist Dreams”, as well as chapters in leading books on women and progressive Islam. Simmons speaks extensively on college campuses and to publics in the U.S. and Western Europe on Islamophobia and Muslim Women’s human rights.

Benjamin Soares is a scholar of Islam and Muslim societies in Africa whose research focuses on religious life from the early 20th century to the present. In recent work, he has looked at the connections between changing modalities of religious expression, different modes of belonging, and emergent social imaginaries in West Africa. In addition to ongoing interests in religious encounters and religion, media, and the public sphere, he is studying contemporary Muslim public intellectuals in Africa. His publications include Islam and the Prayer Economy (2005) and a series of interrelated edited volumes, Muslim-Christian Encounters in Africa (2006), Islam and Muslim Politics in Africa (2007), Islam, Politics, Anthropology (2010), New Media and Religious Transformations in Africa (2015), and Muslim Youth and the 9/11 Generation (2016).

Hindu Traditions The word Hindu can refer to some of the world’s most ancient religious texts and practices, as well as to traditions that are present throughout every part of the globe today. As a field of study Hindu Traditions emphasizes research on languages, communities, texts, performances throughout history and around the globe that are Hindu. Our faculty work with the arts and architecture, languages and literatures, philosophies and theologies, performing arts, healing traditions, women’s studies, and environmental studies, as well as on issues related to water, gender, and social justice. Dr. Narayanan directs ChiTra (the Center for the Study of Hindu...
Traditions), a program which emphasizes interdisciplinary work and the study of Global Hindu traditions, and which serves as an essential resource for graduate students. This field connects with Religion in the Americas in considering the ways in which parts of Hindu traditions have been imported to or coopted by the West, and with Religion and Nature in providing opportunities to examine nature-human relationships in South Asian cultures and religions. The Hindu Traditions faculty collaborate with faculty across the campus, including the Samuel Harn Museum of Art, UF Performing Arts, the Department of Philosophy, the Water Institute, and Women’s Studies.

Faculty

Jonathan Edelmann (Hinduism, Science and Religion, Sanskrit) is an editor for the International Journal of Hindu Studies and author of the award winning Hindu Theology and Biology (2012). Edelmann was a fellow with the American Academy of Religion for two years and held a post-doctoral fellowship at Oxford University. His research is on the Bhāgavata Purāṇa, an important source of culture, fine arts, philosophy, theology, and narrative in South Asia. Edelmann is also interested in the manner in which Hindu thought might respond constructively to contemporary issues in the philosophy and science. He has published in a wide variety of leading academic journals including the Journal of the American Academy of Religion, the Journal of Consciousness Studies, Zygon: Journal of Science and Religion, and the Journal of the American Oriental Society.

Vasudha Narayanan (Hinduism, Global Hindu Traditions) is a Distinguished Professor in Department of Religion and a past President of the American Academy of Religion. Her fields of interest are the Hindu traditions in India, Cambodia, and America; visual and expressive cultures in the study of the Hindu traditions; and gender issues. She is currently working on Hindu temples and traditions in Cambodia. Dr. Narayanan is the author or editor of seven books and numerous articles, chapters in books, and encyclopedia entries. Her research has been supported by, among others, the American Council of Learned Societies, National Endowment for the Humanities, the John Simon Guggenheim Foundation and the Social Science Research Council. Dr. Narayanan was named the University of Florida’s Teacher Scholar of the Year in 2010.

A. Whitney Sanford teaches and researches in two main areas: Religion and Nature and Religions of Asia, and her current work lies at the intersection of religion, food (and agriculture), and social equity. She is currently conducting ethnographic research on the St. Johns River and nearby springs, exploring human attachment to place and water. Her books include Living Sustainably: What Intentional Communities Can Teach Us About Democracy, Simplicity, and Nonviolence (2017), Growing Stories from India: Religion and the Fate of Agriculture (2012) and Singing Krishna: Sound Becomes Sight in Paramanand’s Poetry (2008).

Religion in the Americas This Ph.D. specialization builds upon the strengths of departmental faculty and the University of Florida’s Center for Latin American Studies, one of the largest and best-regarded programs in the country. During the past thirty years, the study of religion in North America has moved beyond a primary focus on once dominant forms of European Christianity that have migrated to the United States to a growing interest in the broad diversity of religious cultures in the Americas. At the same time, scholarship on religion in the Caribbean and Latin America has increased in quantity, diversity, and quality. Our graduate addresses religions throughout the Americas, with a focus on interactions and encounters.

Faculty

David Hackett is a well-known historian of religion in the United States, whose publications include the widely-used textbook, Religion and American Culture, the award-winning The Rude Hand of Innovation: Religion and Social Order in Albany, New York, 1652-1836, and, most recently, That Religion in Which All Men Agree: Freemasonry in American Culture.

Anna Peterson has written extensively on religion and society in Central America, including Martyrdom and the Politics of Religion: Progressive Catholicism in El Salvador’s Civil War, and Seeds of the Kingdom: Utopian Communities in the Americas. Her research focuses on religiously-based social movements in both Latin and North America, with a particular interest in the ways that religious communities interpret and enact environmental values. She co-edited Christianity, Social Change, and Globalization in the Americas and co-authored Latin American Religions: Histories and Documents in Context.

Robin Wright, a scholar of indigenous religions with long experience in Brazil, focuses especially on Amazonian peoples. He is the author of three volumes on the indigenous religious traditions of the Northwest Amazon, and the editor/co-editor of three volumes on Native Christianities of the Americas. He is presently completing a major work on Indigenous Religious Traditions of the Americas. He is Coordinator of the American Indian and Indigenous Studies Program (AIIP) currently housed in the Religion Department.

Several other religion faculty offer courses that enrich the Americas and/or publish research pertinent to it, and serve on the committees of Americas students.

Vasudha Narayanan conducts research and teaches on the Hindu diaspora in North America and directs the Center for Hindu Traditions in the Americas (CHiTra). Mario Poceski, a scholar of Chinese Buddhism, also teaches on Buddhism in America.
Zoharah Simmons teaches courses on African-American religions, Islam in the Americas, and women in religion.

Bron Taylor has written widely on the religious dimensions of environmentalism and environment-related behaviors in America. He teaches courses on “Radical Environmentalism” and “Religion and Nature in North America.”

Faculty and graduate students also work closely with colleagues in Political Science, Anthropology, History, and other programs, to develop research and teaching programs in this interdisciplinary and collaborative field.

Religion and Nature This graduate specialization focuses on the ways that religion shapes environmental attitudes and practices in cultures throughout the world. We cannot address contemporary environmental problems without understanding the complex, reciprocal relationships among human cultures, religions, and the earth’s living systems. For several decades, scholars from many disciplines have addressed religion’s role in shaping human relations to nature. Some of the areas of study within the program include grassroots environmental movements and communities; environmental ethics, philosophy, and theology; sustainable agriculture and food; animals and religion; outdoor recreation; and regional emphases in India, Latin America, and North America. Departmental faculty are involved in numerous initiatives in these and other areas, including Environmental Values and Practices; the Society for the Study of Religion, Nature, and Culture; Women, Water, and Equity in India; Global Religion in Practice; and Sustainable Agriculture. Graduate students have opportunities to become involved in many of these projects. They may also work with departmental faculty involved in the study of Religion in the Americas and Religions of Asia and, beyond the department, in interdisciplinary environmental studies programs elsewhere in the university.

Faculty

Jonathan Edelmann’s award winning book, Hindu Theology and Biology (2012) examines the intersection of Hinduism and the biological sciences. He has published in leading journal in the philosophy of science and religious studies, including the Journal of Consciousness Studies, Biology & Philosophy, the Journal of the American Academy of Religion, and the Journal of the American Oriental Society. Edelmann is particularly concerned with the treatment of animals, respect for all aspects of human life and the earth. In the future he plans to write more about Darwinian evolutionary theory and Hindu thought, drawing on the work of major Hindu thinkers of the 20th century like Swami Vivekananda, Sri Aurobindo, and Radhakrishnan. Anna Peterson has published widely on environmental ethics, religion and social change, and grassroots religious communities. Her books include Being Human: Ethics, Environment, and Our Place in the World (2001), which explores the links between understandings of human and non-human nature, and Seeds of the Kingdom: Utopian Communities in the Americas (2005), which examines agrarian communities striving for social and ecological sustainability in the U.S. and Latin America. Her current research examines the gap between expressed environmental values and actual practices, and the theoretical as well as practical significance of this disjuncture.

A. Whitney Sanford teaches and researches in two main areas: Religion and Nature and Religions of Asia, and her current work lies at the intersection of religion, food (and agriculture), and social equity. She is currently conducting ethnographic research on the St. Johns River and nearby springs, exploring human attachment to place and water. Her books include Living Sustainably: What Intentional Communities Can Teach Us About Democracy, Simplicity, and Nonviolence (2017), Growing Stories from India: Religion and the Fate of Agriculture (2012) and Singing Krishna: Sound Becomes Sight in Paramanand’s Poetry (2008).

Robin Wright teaches on indigenous religious traditions, religion and healing, and contemporary shamanisms. He has conducted extensive field research on indigenous religions of the Amazon region of Brazil. Through his publications, his collaboration with the International Society for the Study of Religion, Nature and Culture, and the American Indian and Indigenous Studies Program, he has worked especially on the relations of humans and nature in indigenous cosmologies throughout the Americas, representations of sacred places in indigenous religions, and the centrality of shamanisms to spiritual connections with the natural world. Among his most important books are: Religion, Medicine, and Healing: Contemporary Perspectives (2d ed., 2016) and Mysteries
of the Jaguar Shamans of the Northwest Amazon (2013).

Other departmental faculty also contribute to the Religion and Nature program.

Vasudha Narayanani, a scholar of religion in South Asia, has published several articles and chapters on Hindu environmental values. Mario Poceski has also written on Buddhism and nature. The graduate program in Religion and Nature also draws on faculty and resources from across the university, including internationally recognized programs in Interdisciplinary Ecology and Tropical Conservation and Development.

A Note on Areas of Study

While the five areas in and of themselves provide the space for specialization, students are encouraged to take advantage of numerous opportunities to forge synergistic links between or among these areas, thereby creating new and important comparative interfaces.

Moreover, although graduate studies at UF’s Department of Religion are anchored around the five areas, we welcome applications from outstanding students whose scholarly interests are not directly connected with these areas, provided that departmental resources are complemented by substantial faculty and library resources in the university at large to allow the applicant to build a rigorous curriculum. Additional possible areas of specialization include sociology and anthropology of religion, early Christianity, indigenous religions, social ethics, Islam in Africa, African-American religious traditions, and the interplay between religion and globalization. In those cases, the applicant must identify a specific mentor in the department with whom s/he intends to work. If accepted, students will work with this mentor, and in consultation with the graduate studies committee, to develop an appropriate program of courses and qualifying exams.

Rules, procedures, and requirements, including those for admission, qualifying exams, and dissertation defense, will be reviewed (and amended if needed) every 5 years. This revision involves input from students. The last major revision took place in 2017.

VI. Admissions Rules And Procedures

General: Some successful applicants enter the department after majoring in religious studies as undergraduates, although others may come from other fields. In most instances doctoral applicants hold a master’s degree from this or other religious studies programs, a theological school, or another program closely related to their Ph.D. specialization.

Some matters to consider before making your application are discussed in the following link: Before You Apply...

Application to the Religion graduate program involves a simultaneous process of application to both the Graduate School and the department. In addition to the minimum requirements of the Graduate School, applicants must fulfill the additional requirements of the department.

Graduate School Minimum Requirements:
Minimum requirements include an earned bachelor’s degree from a regionally accredited U.S. institution or a comparable degree from an international institution. For applicants with a bachelor’s degree only, a minimum grade point average of B (3.0), calculated from all grades and credits after the semester where the applicant reached 60 semester hours or 90 quarter hours, and a satisfactory score on the Aptitude Test (Verbal and Quantitative) of the Graduate Record Examination (GRE), with “satisfactory” generally taken to mean a combined total of 1000 or better. These scores are used in the context of a holistic credential review process.

For applicants from countries (including Puerto Rico) where English is not the official language, a minimum score on one of these English Language Skills tests: Test of English as a Foreign Language (TOEFL): 550 paper (or 213 or better on the computer based test conversion score), or 80 Internet; International English Language Testing System (IELTS): 6; Michigan English Language Assessment Battery (MELAB): 77, or documented successful completion of the University of Florida English Language Institute program. Students who meet the following conditions may be exempt from the English language test requirements: International students whose native language is English or International students who have spent at least 1 academic year in a baccalaureate or post-baccalaureate degree program at a college or university in a country where English is the official language.

Department Requirements:
Regardless of the degree sought, all applicants for admission must meet the Graduate School requirements. In addition, the department requires:

1. Three references from persons competent to evaluate the applicant’s potential for graduate work;
2. An essay of three to five double-spaced, typewritten pages identifying the applicant’s goals and particular interests pertinent to the five available fields of study (this essay is extremely important and applicants should attend to it carefully);
3. Beyond these requirements, applicants need to show clear evidence of solid preparation before admission. This usually includes formal study of...
the online application. The three required letters of Florida, Gainesville, the department’s graduate secretary (transcripts and test scores directly to Office of Admission.

Applicants, completed application, $30 application fee (for first time applicants), transcripts and test scores (international applicants) to the Office of Admission, P.O. Box 114000, University of Florida, Gainesville, FL 32611-4000 or online at http://www.admissions.ufl.edu/pdf/gradreadmission.pdf

Add Or Change A Degree Program: Students who wish to change a major or degree objective (including continuing to a Ph.D. after receiving a master’s degree, or thesis/non-thesis/project options), whether in the same or to a different college, must have the academic unit submit a completed Change of Graduate Degree Program form via the Graduate Information Management System (GIMS). Any changes to degree programs, including thesis/non-thesis/project options, MUST occur before the published midpoint deadline of the student’s final term. Do not submit an Application for Admission form to the Office of Admissions. The Office of Admissions only processes Admission forms to the Graduate School for those who have never been enrolled as a UF graduate student.
VII. Academic Degree Requirements

Specific and current requirements for each of these three fields of study are found online under “Graduate Program” at http://www.religion.ufl.edu/.

Master of Arts

The M.A. degree provides a broad background in the study of religious traditions and theoretical orientations in the discipline. An M.A. student can choose whether s/he will concentrate in one of the five areas of study. If s/he chooses to do so, s/he needs to take the courses recommended for that field of specialization. If s/he chooses not to, s/he can pick courses from across the fields. Course work usually culminates in a thesis and an oral examination on the thesis and course work.

Total credits: Thirty credit hours are required. These include Method and Theory I & II, the Interdisciplinary Seminar, the recommended course(s) of the student’s major field (or equivalent for those not in one of the five fields), and six hours of thesis research credits (or, for non-thesis, a written and oral examination). The additional hours shall consist of further courses in the area of specialization, other graduate seminars, and up to six hours of advanced research language study.

NOTE: in special circumstances, such as fulfilling an out-of-department environmental science credit or acquiring needed background training, undergraduate 4000 level courses can be taken for graduate credit.

Minor: Minor work must be in an academic unit other than the major. If an academic unit contributes more than one course (as specified in the curriculum inventory and/or the Graduate Catalog) to the major, the student is not eligible to earn a minor from the contributing academic unit. If a minor is chosen, at least 6 credits of work are required in the minor field. Two 6-credit minors may be taken with the major academic unit’s permission. A 3.00 (truncated) GPA is required for minor credit.

Thesis: Each student, guided by a supervisory committee which she or he has designated by the end of their second semester, will prepare a Master of Arts thesis, acceptable to the Department of Religion and the Graduate School. The student is expected to present the completed thesis and defend it at a public oral defense conducted by all members of the supervisory committee. Each member must certify on the signature page that he or she has read the final version of the manuscript and found it acceptable in scope and quality. All members must sign the Final Examination Report. The entire supervisory committee must attend the thesis defense (student and chair or co-chair must be physically present; all others may attend remotely).

Non-Thesis: Students who choose the non-thesis option, will take a final written and oral exam. The written exam is “closed book” and six hours in duration. Students with special needs and those whose native language is not English can petition for special accommodations. The petition will be reviewed by the graduate committee. The oral exam lasts between an hour and a half and two hours. The oral examination will be based on the answers to the written examination. Grading and criteria for grading will be the same as for the Qualifying Examinations.

Language study: All M.A. students are encouraged to demonstrate competence in a scholarly language other than English relevant to their area of research and teaching prior to beginning the thesis. The chosen language and how the student’s competence will be judged must be approved by the student’s supervisory committee chair. Frequently, language competence is met through (1) taking an appropriate course or courses in the language with a grade of B or better or (2) passing a language comprehension exam (usually administered by a department member or a language department at the University). Basic course work for scholarly languages will not count toward the required 30 credit hours. However, students studying a scholarly language connected to their research needs, above and beyond basic competence, can receive six or more credit hours for such specialized courses toward the required 30 total credit hours with approval of the student’s supervisory committee chair and the graduate coordinator.

NOTE: The Graduate School requires that all work counted toward the master’s degree must be completed during the seven years immediately preceding the date on which the degree is awarded.

Promotion to doctoral status: The Department anticipates admitting only the best qualified M.A. students to the doctoral program, except in cases of an exceptional undergraduate major in religion. Resident graduate students who wish to apply for doctoral status (i.e., permission to fulfill requirements leading to doctoral qualifying examinations) must apply during the semester before they wish that status to be changed. A review and decision will be made by the field faculty and the graduate committee.

NOTE: Students admitted to the doctoral program prior to completion of the M.A. will be admitted provisionally and their application reviewed following successful completion of the M.A. degree.

**Doctor of Philosophy**

A student usually enters with a religion master’s degree either from this or another institution. Those admitted with master’s degrees in disciplines other than religion may petition to bypass the religion master’s degree with additional religion course work. All students are admitted into one of the areas of study and should fulfill the recommended course work as outlined in the area descriptions. Students in all fields are encouraged to take courses in other departments to support work in their area of specialization. The Religion Department offers a Ph.D. in five areas of study: Buddhist Traditions, Global Islam, Hindu Traditions, Religion in the Americas and Religion and Nature.

**Course Requirements:** The University of Florida requires 90 hours of course work for the Ph.D. These may include up to 30 hours from a completed M.A. degree. The number of hours credited toward the Ph.D. is at the discretion of department faculty. A minimum of 42 hours is devoted to course work at the doctoral level. The specific distribution of course work depends on the specialization, but will include intensive work in the major area of specialization, 6 hours of Method and Theory (If not taken at the M.A. level), 3 hours of the Interdisciplinary Seminar and at least 18 hours devoted to dissertation writing and research. 

*NOTE:* in special circumstances, such as fulfilling an out of department environmental science credit or acquiring needed background training, undergraduate 4000 level courses can be taken for graduate credit.

**Mentorship:** All students are assigned a faculty mentor upon admission to the program, based on expressions of faculty interest and the student’s intended area of study. The mentor and graduate coordinator answer questions and provide support for the student in choosing courses and planning a program. By the end of the second semester all master’s degree students must designate their supervisory committee chair and one additional department committee member. By the end of the second semester all doctoral students must designate their committee chair. By no later than the end of the fourth semester of study, all doctoral students must designate a four member supervisory committee including the chairperson and one UF faculty member from outside the department.

**Minor:** Minor work must be in an academic unit other than the major. If an academic unit contributes more than one course (as specified in the curriculum inventory and/or the Graduate Catalog) to the major, the student is not eligible to earn a minor from the contributing academic unit. A 3.00 (truncated) GPA is required for minor credit. With the supervisory committee’s approval, the student may choose one or more minor fields. If one minor is chosen, the supervisory committee member representing the minor suggests 12 to 24 credits of courses numbered 5000 or higher as preparation for a qualifying examination. If two minors are chosen, each must include at least 8 credits. Competency in the minor is demonstrated by written examination by the minor academic unit, or by the oral qualifying examination.

**Teaching:** The department does its best to secure teaching experience for its doctoral students and views such experience as integral to the professional education it offers. The department also encourages doctoral students to give lectures in appropriate undergraduate courses taught by members of the faculty. Qualified doctoral candidates may be able to offer their own courses.

**Language requirements:** All doctoral students must demonstrate proficiency in at least one and in many cases two languages other than English. The chosen language(s) as well as how and when the student’s competence will be judged must be approved by the student’s supervisory committee chair. Frequently language competence is met through (1) taking an appropriate course or courses in the language with a grade of “B” or better or (2) Passing a language comprehension exam. This exam will usually consist of a timed translation of a text in the field with only the use of a dictionary. The test will be administered by a department member or a language department at the University. Students must earn a B or above in the translation to be able to pass the exam. Basic course work for scholarly languages will not count toward the required 90 credit hours. However, students studying a scholarly language connected to their research needs, above and beyond basic competence, can receive six (or more) credit hours for such specialized courses toward the required 90 total credit hours with approval of the student’s supervisory committee chair and graduate coordinator. Under special circumstances, and with the approval of the graduate coordinator, the language exam may be waived on the basis of course work, field experience, and/or native competence.

**Qualifying examinations:** Qualifying examinations form a bridge between course work and dissertation research. They are meant to assess the student’s familiarity with the essential works, authors, issues, methods, and theories that have defined the field. Further, students must demonstrate their capacity to think
on their feet,” being able to synthesize critically — and in a limited time span — the extant literature and take an informed position in relationship to this literature. Normally students take qualifying examinations during one of two specified periods in their third year in residence. Currently available comprehensive reading lists for each area of study can be found at: http://web.religion.ufl.edu/graduate.html. The written portion of the qualifying examinations takes the following format:

Each exam is five hours long, except for students with disabilities and those whose native language is not English. With the proper documentation and permission from the graduate studies coordinator, foreign students and students with disabilities may have up to 8 hours to complete each written exam.

Under normal conditions, students write one exam per week over a period of four weeks.

Ideally, qualifying exams should take place in October (for the fall semester) or mid-February (for the spring semester).

Exams are “in-house,” taken on a computer provided by the department, and closed-book.

Students will have access to the specific questions on the day of the exam. These questions will be available through the department secretary when the office opens. In preparation for the exam, students may discuss with their mentors and examiners a list of potential topics or issues that may appear in the test. Such themes and topics will be congruent with the reading lists.

Upon completion of the written exams, the examiners will convey their assessment as either PASS, CONDITIONAL, or FAIL. The oral defense can only proceed if the student has passed ALL the written exams. Ideally and normally, the oral part of the qualifying examinations should take place within two weeks after the completion of the last written examination. CONDITIONAL signifies that a part or parts of the written examination require a second written examination. FAIL is defined as work at the C level or below. If the student fails a written qualifying examination, a re-examination may be requested, but it must be recommended by the supervisory committee and approved by the Graduate School. Under normal circumstances, at least one semester of additional preparation is considered essential before re-examination.

Graduate Certificate in Global Islamic Studies

The Center for Global Islamic Studies offers a graduate-level (Master’s and Ph.D.) Certificate in Global Islamic Studies. The goal of this certificate is to train students to pursue careers in teaching and research related to Islam, and will broaden students’ understanding of the diversity of Islam in the global context.

The certificate requires the completion of 15 credits for all students. All students must choose two of the three core courses, and three additional elective courses related to particular contexts and topics.

Failure in two qualifying exams, or a second failure in a single, previously-failed qualifying exam area constitutes grounds for dismissal from the program. In that case, if the supervisory committee considers the qualifying exams of sufficient quality for a student at the Master’s level, they will count as the final written and oral examinations for the non-thesis Master’s option and the candidate will receive a terminal MA. In accordance with Graduate School procedures, in case of failure, students have the right to grieve the decision of the committee. The graduate coordinator (or the department chair if the grad coordinator is on the committee) will designate a second, properly qualified reader not in the original committee to assess the examination. The second reader will report his/her assessment in writing to the supervisory committee who will make the final determination on the matter. If the student is not satisfied, then the grievance goes to the college. Again, if the student is not satisfied with the outcome, an appointment with the Ombudsman can be made. S/he will go over the details of the process, talk to the student and the program, and mediate a resolution.

The final component is an oral examination normally taken within two weeks of the last written examination. The oral examination will be based on answers to the written examinations. The entire supervisory committee must attend the oral portion of the examination (student and chair or co-chair must be physically present; all others may attend remotely). Under normal conditions, the oral part of the examination lasts between an hour and a half and two hours. The supervisory committee has the responsibility at this time of deciding whether the student is qualified to continue work toward the Ph.D. degree. A candidate passes the orals if at least 75% of the faculty members present vote “pass.” The committee may ask questions related to the written exams or connected with reading list. The results of the qualifying examination, successful or unsuccessful, must be filed with the Graduate School.

In order to receive distinction in the qualifying examinations, students must receive outstanding in ALL parts of the exams (written and oral). The decision to award distinction must be unanimous. Outstanding designates work at an A level, with the student presenting himself/herself as a full-fledged junior scholar in the field.
Please Note: Currently enrolled UF graduate students will be permitted to count previously taken coursework towards a Graduate Certificate to which they have been admitted, if approved by the academic unit offering the Graduate Certificate and by the academic unit offering their primary graduate degree program. For more info, visit the link: http://globalislam.center.ufl.edu/academics/graduate-certificate-in-global-islamic-studies/

VIII. SPECIFIC AREAS OF STUDY REQUIREMENTS

Buddhist Traditions

The specialization in Buddhist studies incorporates a variety of relevant themes and approaches, including textual, historical, ethnographic, or archival research, covering a vast array of Buddhist beliefs, doctrines, and practices. Graduate students specializing in Buddhist studies work on diverse topics, such as the early development of Pure Land Buddhism, the emergence and growth of the Medicine Master Buddha cult in medieval China, the role of women in Chinese religions, and the intersections of Buddhism and American literature.

Recommended courses (beyond Method & Theory I and II and the Interdisciplinary Seminar): Students are strongly encouraged to take a broad array of courses, within and outside of the department, in consultation with their mentor.

Elective courses: Students have the freedom to choose courses that fit their intellectual interests and enhance their academic study. These may include graduate courses offered by other programs or departments, such as art history, Chinese studies, anthropology, women’s studies, and film and media studies.

Language requirement: Students must demonstrate competence in at least one language used in the study of Buddhism (primarily Chinese, but it can also be another language, such as Japanese or Korean). Sometimes a second language may be needed, depending on the student’s area of specialization and its relevance to his/her dissertation research.

Qualifying examinations: Students will take five examinations in the following areas: (1) Buddhist studies; (2) the study of another religion (e.g., Islam, Daoism, or Hinduism) or the religions of a geographical area (e.g., China); (3) religious studies method and theory; (4) relevant sub-field in Buddhist studies; and (5) an oral examination, to be taken upon successful completion of all written qualifying exams. The oral examination will be based on the answers to the written examinations.

Global Islam

The specialization on Global Islam accommodates a variety of methodological approaches with many students carrying out ethnographic research on the myriad expressions of Islam in different settings. Current graduate students and recent graduates in Global Islam work on diverse topics, including Muslims in Puerto Rico, identity and militancy in Iraq, Muslim interpretations of environmentalism in Senegal, Islam and inter-religious relations in Ethiopia, and Muslim youth in Florida, among other topics.

Recommended courses (beyond Method & Theory I and II and the Interdisciplinary Seminar):
1) Muslim Thought and Practice: Historical and Contemporary Perspectives I & II
   (Students will first take part I, which deals with the early/classical period, and then part II, which focuses on contemporary Muslim thought and practice)
2) RLG 5365: Global Islam
3) RLG TBD: Islam and Muslim Societies after Orientalism

Students are strongly encouraged to take a course in research methods, which could include RLG 5937: Religion, Ethnography, and Fieldwork; ANG 5485: Research Design in Anthropology; LAS 6239: Design/Methods of Research; SYA 6305: Methods in Social Research I; SYA 6315: Qualitative Research Methods; or POS 6707: Qualitative Research Methods for Political Science.

Elective courses: Students also have the opportunity to take a range of other courses relevant for their area of research. These courses are offered both by the department of religion and other departments, and include: RLG 5365: Women & Islam; RLG 5365: Islam in America; RLG 5365/AFS 6905: Religion and Reform in Africa; RLG 5365/AFS 6905: Islam in Africa; POS 6933 Global Islam and Politics; AFS Islam and popular culture in Africa; AFS 6905 Islam and African literature; POS 6933: Modern Middle East Politics; ANG 6930: Islam in the West; SYA 7933/POS 6933: Ethnic Conflicts in Comparative Perspective; ANG6930/AFS6905 Global Connections; AFH 6269/AFS 6905 Religion in Modern Africa

Language requirement: Students must demonstrate
competence in at least one language (other than English) relevant for their research. In some cases this might mean Arabic, but it could also be an African, Asian or European language.

Qualifying examinations:
Ph.D. students in Global Islam must take four written and one oral qualifying exam, as follows:
1. Muslim Thought and Practice – historical and contemporary perspectives
2. Academic approaches to the study of Global Islam
3. An exam in an area, defined as a teaching field, such as a thematic area (e.g. Gender & Islam, Islam and Media, Reformism, or Sufism) or geographic area (e.g. Islam in Africa, Asia, the Americas, or Europe)
4. The student’s area of specialization

Hindu Traditions

Recommended courses (beyond Method & Theory I and II and the Interdisciplinary Seminar): REL 6319 Interpreting Asian Religions; REL TBD Hindu Traditions; and REL TBD Hindu Traditions 2.

Language requirement: All students are required to demonstrate adequate mastery of at least one language relevant to their study of Hindu Traditions—which can be either a classical or a modern language—selected on the basis of its relevance to the student’s area of study. Depending on the student’s research topic, competence in additional classical or modern languages may also be required, as determined in consultation with the faculty supervisory committee. Students are expected to take Sanskrit courses at UF. We also strongly encourage students to take language courses in the South Asia Summer Language Institute or through the American Institute of Indian Studies in India.

Qualifying examinations: 1) Primary religious tradition (Hinduism or Jainism); 2) Secondary religious tradition or the religions of a geographical area (e.g. China); 3) Approaches to the academic study of Asian religions. This exam will usually be based on the Interpreting Asian Religions course, but it can alternatively consist of (1) an examination offered by one of the other areas of study in the department, or (2) an examination in a relevant subfield in another discipline (such as history, women’s studies, or anthropology); 4) Student’s area of specialization; 5) Oral examination, to be taken upon successful completion of all written qualifying exams. The oral examination will be based on the answers to the written examinations.

Religion in the Americas

This area of study stresses ethnographic and/or archival research on the myriad of expressions of religion in the region. Graduate students and recent graduates in Religion in the Americas work on diverse topics, including yoga in the U.S., Mormon missions in Latin America, transnational Charismatic Christian movements, the Jewish diaspora in Latin America, and religion and politics in Chile, among others.

Recommended Courses (beyond Method & Theory I and II and the Interdisciplinary Seminar):
Students should take these three core courses:
1) RLG 6126: Religion in the Americas
2) RLG 6387: Religion in Latin America,
3) RLG 6137: Religion in North America.

Students are strongly encouraged to take these three additional courses:
1) RLG 6137: Indigenous Religions of the Americas
2) RLG 5365: Islam in the Americas
3) A research methods course such as RLG 5937: Religion Ethnography, and Fieldwork; ANG 5485: Research Design in Anthropology; LAS 6239: Design/Methods of Research; SYA 6305: Methods in Social Research I; SYA 6315: Qualitative Research Methods; or POS 6707: Qualitative Research Methods for Political Science; among other possibilities.

Elective courses

As often as possible, department faculty offer courses such as Buddhism in America, Hinduism in America, Globalizing the Sacred, and Religion and American Immigrant Experience. Graduate students in the Americas are encouraged to take these courses whenever possible.

Language requirement
Students must demonstrate competence in at least one and in many cases two non-English languages in the Americas (i.e., Spanish, Portuguese, Haitian Creole, and/or any other Amerindian languages) selected in consultation with the faculty supervisory committee on the basis of their relevance to the student’s research program.

Qualifying examinations
Ph.D. students in Religion in the Americas must take four written and one oral qualifying exam, as follows:
1) North American history, culture, and religion
2) Latin American history, culture, and religion
3) Religion in the Americas
4) A fourth exam in another area, defined as a teaching field, such as Indigenous Religions; Islam; Hinduism; and Religion and Nature; or Sociology, Anthropology, or Philosophy of Religion, among others. This exam is to be determined in consultation with the student’s advisory committee.
5) Oral examination, to be taken upon successful completion of all written qualifying exams.
This area of study stresses ethnographic and/or archival research on the myriad of expressions of religion in the region. Graduate students and recent graduates in Religion in the Americas work on diverse topics, including transnational Mormon missions, charismatic Christian movements, Cuban Protestantism, yoga in the U.S., the Jewish diaspora in Latin America, borderlands religion, Korean Protestantism in the U.S., religion and politics in Chile, and Native American Christianity among others.

**Religion and Nature**

Graduate students in Religion and Nature have a broad range of research interests, including the religious and ethical dimensions of fly fishing, wolf reintroduction, sustainability, feminist evolutionary theory, religiously-based agrarian communities, resistance to mountaintop coal removal, sustainable agriculture, conservative Christianity and climate change, sustainability in secondary education, and the work of Mary Midgley.

**Recommended courses (beyond Method & Theory I and II and the Interdisciplinary Seminar):** REL 6107 Religion and Nature REL 6183 Religion and Environmental Ethics; REL 5195 Religion, Nature, and Society; at least one course in Asian religious traditions; at least one course in Western religious traditions; a course in either the natural sciences or a course in research methods (Students without undergraduate degrees, or graduate coursework or degrees in the natural sciences, will be expected to take at least one course grounded in the natural sciences, as approved by their graduate committee.)

**Language requirement:** Tested competence in at least one and in many cases two non-English languages selected in consultation with the faculty supervisory committee on the basis of their relevance to the student’s research program.

**Qualifying examinations:** 1) Religion and Nature in Religious Studies and the Social and Natural Sciences; 2) Religion and Nature in Ethics and Philosophy; 3) Religion, Nature, and Society; 4) A fourth exam in a secondary area, which can be one of the exams in Religions of Asia or Religion in the Americas, or another field such as Indigenous Religions, Sociology, Anthropology, or Philosophy of Religion, among others. This exam is to be determined in consultation with the student’s advisory committee; 5) Oral examination, to be taken upon successful completion of the four written examinations. The oral examination will be based on the answers to the written examinations. Most students will take the above four exams. Alternatives may be approved by the mutual agreement of the committee and student. A student taking a global, comparative approach, for example, may propose taking for the fourth exam, a second region, discipline or tradition-based exam, such as both religion and nature in Eastern hemisphere and religion and nature in the Western hemisphere.

**Non-track and Dual-track**

While the listed areas of study reflect the department’s foci and strengths, students have the following two additional options:

**Non-track**

Students whose scholarly interests are not directly connected with the department’s established areas of study are allowed to pursue their studies beyond these areas, provided that departmental resources are complemented by substantial faculty and library resources in the university at large to allow the applicant to build a rigorous curriculum. In that case, the student must identify a mentor in the department who can work with him/her, as well as secure approval from the graduate studies coordinator.

**Required Courses**

In addition to the three courses that are required for all Ph.D. students in the department—Method and Theory I & II and the Interdisciplinary Seminar—all students must take the needed additional courses relevant for their research interest. At least 50% of these must be religion courses. In order to ensure that the academic and formal requirements are met, the students in the non-track option must closely consult his/her mentor/supervisor and the graduate coordinator.

**Qualifying Examinations**

Similar to students in the other areas, students in the Non-track option must take four written and one oral qualifying exam (to be taken upon successful completion of all written qualifying exams). These exams will be determined according to the coursework and research focus of the student. Generally, the examinations will cover areas of knowledge that are connected to established teaching subfields in the discipline.

**Dual-track**

In the interest of increasing interdisciplinary work, we also allow students to combine courses from two of the department’s established areas of study.

**Required Courses**

In addition to the two courses that are required for all Ph.D. students in the department— Method and Theory I & II and the Interdisciplinary Seminar - Dual-track
students must fulfill all the required coursework from each of the two areas they choose. In order to ensure that the academic and formal requirements are met, the students in the Dual-track option must closely consult his/her mentor/supervisor and the graduate coordinator.

Qualifying Examinations

IX. Dissertation Prospectus

After successfully completing the oral examination, doctoral students must, by the end of the semester following their oral examination, submit a formal dissertation proposal to the faculty chair of their supervisory committee and arrange an open meeting with their supervisory committee and area faculty to discuss the proposal. If the proposal is accepted, the candidate is permitted to complete the project in consultation with the supervisory committee.

The proposal should define, in a clear, focused, and well thought-out manner, the goals of your dissertation research as well as your methodological and theoretical approaches. The proposal should show to your committee and the Graduate Committee that you have a firm grasp of your topic, its potential contributions to the study of religion, and the disciplinary contexts in which it will be situated. The proposal should be a concise and accessible document, using language that all scholars of religion—not just those in your subfield or specialty—will understand.

The proposal should be limited to 15-20 double-spaced, typed pages, not including your bibliography and appendices. Keep in mind that the proposal is meant as a description and justification of a dissertation project and not an account or status report of research already completed.

The sections described below should help you focus your topic, limit the scope of your inquiry, and justify the importance of your study. Your bibliography will illustrate the depth of your preliminary research and your expertise within the context of your topic.

Though deviations from these guidelines can be made in consultation with one’s dissertation chair, please adhere to the following expectations:

Abstract (200 words, maximum)
The dissertation abstract states your thesis topic, provides a concise summary of that topic, and describes the significance of your treatment of an important scholarly question about religion, religious experience, and the understanding of religious behavior and thought. It should articulate clearly and concisely, without the use of jargon or specialized vocabulary, the problem(s) or issue(s) on which your dissertation will focus.

Proposal (5,000 words, maximum)
The proposal should explain the proposed dissertation at greater length than the abstract and should consist of the following sections:

Statement of the Problem: Concisely state the question, issue, or problem that your dissertation will engage. Do not repeat your abstract here; rather, use this section to explain your thesis and the argument that you propose to analyze and demonstrate in your dissertation. In your articulation of the dissertation’s main topic, you should both describe the context out of which it arises and define the boundaries and limits of your research.

Significance of the Study: Describe in explicit terms the contribution(s) your dissertation will make to the advancement of knowledge in religious studies generally and your subfield in particular. Describe the context out of which your dissertation topic arises by providing a review of the literature that is important for your research and the ways in which your dissertation will add to and differ from that literature. More than just implying the significance of your study, state explicitly why your research matters in terms of your specialty and the wider investigation of religion, religious experience, and the understanding of religious behavior and thought.

Methodology: Explain the methods by which you will demonstrate the argument which you have proposed, described, and justified in the previous sections. This section allows you to show your facility with the theoretical and practical models you will utilize as part of your dissertation research. You should make it clear that you know both how you will construct your argument and that you are able to do so with the data collected in your research. Defend your choice of method(s) for your particular study and explain why those method(s) fit your dissertation goals. Make sure to include the way(s) in which you will construct your argument using the method(s) and theory (theories) you describe.

Chapter Outline: Present a description of how the dissertation will be structured, including an outline (in narrative or schematic form) of the proposed chapters.

Timeline: Detail your progress to date and your schedule for the research and writing of your dissertation. This section should be no longer than 500 words.

Selected Bibliography
As an indication of how thorough an investigator has researched his/her field, the bibliography shows the researcher’s command of the context and history of a particular topic. Your bibliography should also show the relationship of your topic to the study of religion and other fields of inquiry related to your topic. Make sure that it indicates the major theoretical and critical works that bear on your dissertation. For your proposal, include only the works that most clearly demonstrate your preparation to carry out the work you propose.
Appendices
If applicable, submit any of the supporting materials that make up your proposal, e.g., questionnaires, research apparatus, Institutional Review Board approval, etc.

Format Requirements
• Margins: 1 inch all around;

X. Supervisory Committee Chairs and Members

Each student admitted to doctoral study in religion will be assigned a mentor from his or her major field of interest. By the end of the second semester of study, a supervisory committee chair will be nominated by the student, in consultation with her/his advisor, to approve and monitor her or his program of study. By the end of the fourth semester of study, the student must establish a four member supervisory committee, including a chair and a member from outside the department. The chair and at least one additional member of the committee must be members of the religion graduate faculty. The Dean of the Graduate School is an additional ex officio member of all Ph.D. committees. The supervisory committee is formally nominated by the department chair, approved by the Dean of the College of Liberal Arts and Sciences, and appointed by the Dean of the Graduate School. Membership on supervisory committees may be altered through the mutual agreement of a faculty member and the student. Changes can be made in the final term only by petition to the Graduate School.

Supervisory Committee Rules
Ph.D. supervisory committees must have at least four members, all of whom are graduate faculty, with the possible addition of special appointments to the graduate faculty. The chair and one other member on the committee must be on the graduate faculty of the academic unit offering the major and conferring the degree.

The external member on the committee must be from the graduate faculty of an academic unit outside of the one offering the major and conferring the degree.

A special appointment may not serve as a supervisory committee chair, co-chair, or external member. A special appointment may not be counted toward minimum committee graduate faculty requirements; for instance a master's thesis committee with a special appointment will still require the inclusion of two full members of the graduate faculty.

If a double-track or a certificate is chosen, the supervisory committee includes at least one Graduate Faculty member representing this. If the student elects more than one minor, each minor area must be represented on the supervisory committee.

Special appointments: People without Graduate Faculty status may be made official members of a student's supervisory committee through the special appointment process. Appropriate candidates for special appointments include:

- Individuals from outside UF with specific expertise who contribute to a graduate student's program of study;
- Tenure-track faculty not yet qualified for Graduate Faculty status; and
- Non-tenure-track faculty or staff at UF who do not qualify for Graduate Faculty status.

Limitations for special appointments:

- They do not hold Graduate Faculty Status;
- They have a special appointment that is specific only to an individual student's committee; and
- They may not serve as a supervisory committee chair, co-chair, external member, or minor representative.

The student's supervisory committee chair requests the special appointment, briefly explaining what the special appointment contributes to the supervisory committee. A special appointment is made for a specific supervisory committee. If a student changes to a new degree or major and the committee chair wishes to include the special member on the new supervisory committee, another request must be submitted to the Graduate School for the new committee.

External member: Represents the interests of the Graduate School and UF;
- Knows Graduate Council policies; and
- Serves as an advocate for the student at doctoral committee activities.

Faculty holding joint, affiliate, courtesy, or adjunct appointments in the degree-granting academic unit and have faculty status in that academic unit cannot be external members on a student's committee.

Minor member: The Graduate Faculty member who represents a minor on a student’s committee may be appointed as the external member if he/she does not have a courtesy graduate appointment in the student’s major academic unit.

Co-chair: To substitute for the chair of the committee at any examinations, the co-chair must be in the same academic unit as the candidate.

Retired faculty: Graduate Faculty members who retire may continue their service on
supervisory committees for 1 year. With approval of the academic unit, and the graduate school, retired faculty may continue serving on existing or new committees beyond this period.

Substituting members at qualifying and final examination: If a supervisory committee member cannot be present at the student’s final defense, a Graduate Faculty member in the same academic area may substitute for the absent committee member. The substitute should sign the Final Examination form on the left side, in the space provided for committee members, noting the name of the absent member.

The chair of the student’s major academic unit also must indicate the reason for the absence and state that the absent member agreed to this substitution at the final examination.

The substitute should not sign the ETD signature page. The original committee member must sign.

The student and chair or co-chair must be present for the oral defense; however, other committee members may elect to attend remotely, with approval by the other committee members, using modern communication technology to be present rather than being physically present at the defense.

No substitutes are allowed for the chair or external member of the committee. Changes to the supervisory committee may be entered online before the qualifying examination. No substitutes are allowed for special appointments, since they’re supposed to be special “guest experts.” But they can telephone in or use other electronic media to attend.

If we have an affiliate faculty member -- a faculty member from another department-- they can be given graduate faculty status from the Department of Religion. The paperwork for this graduate faculty status is submitted online via GIMS. Once they have graduate faculty status in Religion, they can be the student’s chair or the other member that must be from our department. Affiliate members who do not have graduate faculty status from Religion, can be external members of our student’s committee as external membership is contingent on graduate faculty status, not employment.

M.A. degree supervisory committees must have a supervisory department committee chair and one additional committee member with graduate faculty status.

For a non-thesis master's degree, the supervisory committee consists of one advisor from the major department.

XI. Admission To Candidacy

Admission to candidacy is awarded to the doctoral student upon successful completion of the qualifying examinations, the dissertation prospectus, and all other course and language requirements, and with the approval of the supervisory committee, the department chair, the college dean, and the Dean of the Graduate School. The approval is based on (1) written and oral qualifying examinations, (2) the academic records of the student, (3) the opinion of the supervisory committee concerning overall fitness for candidacy, and (4) an approved dissertation topic. Once approved for candidacy, the secretary of the Department makes a formal application to the Department and Graduate School for admission to Ph.D. candidacy through GIMS (Graduate Information Management System, the UF Graduate School’s information bank website for keeping, looking up and updating graduate student and faculty records online). It is the responsibility of the student to confirm that all Graduate School deadlines for completion of all requirements are met. Candidacy signals the completion of all requirements except the dissertation and its defense. Through conferring the status of candidacy, the department and Graduate School officially confirm that a student is qualified to conduct the dissertation project she or he has proposed.

XII. Dissertation And Its Defense

The final years of the program are devoted to dissertation research and writing. It is crucial at this stage that the student set up a timetable for the completion of the dissertation and maintain regular communication with the supervisory committee chair. The student is expected to present the completed dissertation to the members of the supervisory committee at least four weeks prior to its public oral defense conducted by the supervisory committee. It is the student’s responsibility to obtain information on deadlines and format questions from the Graduate School well in advance of the defense. Note: The Graduate Council requires that doctoral students must complete all of their work within five calendar years after the qualifying examinations or else those examinations must be repeated.

XIII. Registration Procedures
Students may register for courses and check course schedules, fee assessments, and grades using the online Student Self Service (ONE.UF) directly at https://one.ufl.edu/ or through my.ufl.edu, or the secretary may register them for the classes.

Procedures for registration are outlined in the Schedule of Courses publication, online at www.Registrar.ufl.edu or on ONE.UF at https://one.ufl.edu/.

All international graduate students whose first language is not English (official first language of home country) and who may be appointed as teaching assistants (with lecturing/lab) must score at least 55 on the SPEAK Test or 28 on the Speaking Section of the Internet TOEFL to teach in the classroom, laboratory, or other instructional setting. Those who score 45 to 50 on the SPEAK Test, or 23 to 27 on the Speaking Section of the Internet TOEFL, may teach if they concurrently enroll in EAP 5836 to help their personal interaction and public speaking skills. Those who have scores below these minimums are not eligible to teach.

Information about the University of Florida English Language Institute is available at http://www.eli.ufl.edu/. Students may register for the locally administered SPEAK test with the Academic Spoken English Office, 314 Yon Hall.

Registration Requirements
Review the Graduate Catalog (http://gradcatalog.ufl.edu) or the Graduate School FAQ website (http://graduateschool.ufl.edu) for complete registration requirements.

**Full-time registration** is 9 to 12 credits. Students not on an appointment and without a specific registration requirement by the government, external funding agency, or academic unit may register as a part-time student. Minimum registration is 3 credits in fall or spring and 2 credits in summer. Students on a fellowship, traineeship, or assistantship must be registered appropriately for their appointments. Any graduate student who is using University facilities (e.g., libraries, laboratories, etc.) and/or faculty time must register for an appropriate load.

During the terms of the qualifying examination, when applying for candidacy, of the final examination, and the final term in which the degree is awarded, the student must be registered for credits that count toward the graduate degree. In the latter of the two terms cited, thesis students must be registered for 6971 (3 credits in fall/spring and 2 in summer). For non-thesis students, the requirements are the same number of credits; however, registration cannot be 6971 but rather something that will count for his/her degree. The requirement for doctoral student’s final term registration is RLG 7980 (3 credits in fall/spring or 2 credits in summer). Before being admitted to candidacy, Ph.D. students take RLG 7979 the semesters they are studying for qualifying exams, and after passing their oral exams, have an approved dissertation topic, and are admitted to candidacy, Ph.D. students would take RLG 7980.

Courses may be dropped or added during drop/add without penalty. This period usually lasts 5 UF calendar days or 2 days for summer, starting with the first day of the term. Classes that meet for the first time after drop/add may be dropped without academic penalty or fee liability by the end of the next business day after the first meeting. This does not apply to laboratory sections. Graduate students may drop a course during the current term until the day before commencement, as stated in the Academic Calendar. Students not on appointment must maintain minimum registration when enrolled. Students on appointment must always maintain appropriate registration unless otherwise approved by the Graduate School. Registration adjustments made after the drop/add deadline of the current semester will result in the student having financial liability for all credits, including those dropped or added. This financial liability also applies to students on appointment receiving tuition waivers.

### Teaching Assistants Registration Requirements:

| Assistants on .75-1.0 FTE | 2 hours in either B or C or B & C, Cannot be in A |

Any graduate student may be denied further registration in the University or in a graduate program should scholastic performance or progress toward completion of the planned program become unsatisfactory to the department, college, or Dean of the Graduate School. Unsatisfactory progress includes, but is not limited to, failure to maintain an overall B (3.00) in all work.

### XIV. Graduate Courses and Credits

Undergraduate courses (1000-2999) may not be used as any part of the graduate degree requirements. Up to six credits of undergraduate courses (3000-4999) outside the major may count when taken as part of an approved graduate program.

Courses numbered 5000 and above are limited to graduate students, with the exception described in "Undergraduate Registration in Graduate Courses" in the Graduate Catalog. Courses numbered 7000 and above are mainly for advanced graduate students.

Most graduate courses may not be repeated for credit. However, there is no limit on courses numbered 6971 (but only six credits will count towards the MA), 7979, and 7980. Other courses that may be repeated for credit are designated by “max:” immediately following the single term credit as listed in the Fields of Instruction section of the Graduate Catalog.

No more than five credits each of 6910 (Supervised Research) and 6940 (Supervised Teaching) may be taken by a graduate student at the University of Florida.

Graduate students in religion ordinarily take courses of different kinds and for different purposes. One aim is to develop familiarity with leading traditions of research and analysis in religious studies. Another is to prepare for PhD examinations. A third is to pursue specific interests relevant to the student’s scholarly development, especially in relation to the thesis or dissertation. A fourth is to prepare for careers outside of academia. Students are expected to consult their supervisory committee chair and the department’s graduate coordinator in designing a course of study that satisfies these aims in the limited time available.

Every year a Method and Theory departmental seminar is offered (Method & Theory I or II in alternate years). This course is required of all first and second year graduate students. Its purpose is to help students develop awareness of various approaches to the study of religion, the history of these approaches, and their assumptions about understanding and explaining religious texts and behavior.

Every other year an Interdisciplinary Seminar is offered. The purpose of this course is to bridge the department’s separate areas of study through the examination of topics and themes broadly relevant to the field of religious studies. The content of this course changes each time it is offered and all first and second year graduate students are required to take this course when it is offered during their first two years of graduate study.

Specialized instruction within the areas of study is carried on primarily in courses detailed in the area descriptions. The department also offers graduate seminars in related areas outside the specific fields. In addition, students regularly participate in individual or small reading courses with a member of the faculty, the form and content of which are tailored to the student’s particular needs and interests.

Almost all graduate students in religion take courses outside the department. Most enroll in graduate seminars and reading courses in such departments and centers as African Studies, Anthropology, Botany, English, History, Jewish Studies, Latin American Studies, Philosophy, Political Science, Sociology, Women’s Studies and Gender Research, Zoology, and from the interdisciplinary School of Natural Resources and the Environment.

While specific degree requirements and interests shape a candidate’s program, most generally enroll in three courses, including both seminars and reading courses, during each of the semesters prior to the M.A. thesis or Ph.D. qualifying examinations.

**REL 6910: Supervised Research.** This is for research projects, especially at the MA level, not for library study exclusively. The supervisor should be a professor who oversees the research.

**REL 7979: Advanced Research.** This is for pre-qualifying exam research. Students may register for as few as three credits, and up to 9 credits, if this is necessary to maintain their assistantship requirement of taking 9 credits. (Alternatively, if they are taking a three credit course while studying for qualifying exams, they
could register for six credits of this course when studying for qualifying exams, and so on.)

REL 7980: Doctoral Research. This is exclusively for students engaged in post-qualifying exam dissertation research. A student can take as many of these up to the maximum in a semester as required by assistantships, fellowships, or other stipends. Many students use these while they are on fellowship and need to fill up hours. Normally students will register for more than three credit hours given the intense time commitment required.

Professional Development Seminar
All students are encouraged to take the one credit Professional Development Seminar. This seminar can be taken more than one time and is intended to provide students with an ongoing forum for presenting individual work and for discussions of professional development i.e. conference involvement, job market and other issues related to preparation for future occupations.

Audited courses at any level do not count toward any graduate degree requirements.

Independent studies are intended for students who wish to explore topics not covered by the regular courses or to deepen knowledge in a specific subfield of specialization. As such, they are part and parcel of advanced doctoral studies. However, students should be careful not to fill their schedules with too many with independent studies. These tutorials must entail a rigorous program, which normally includes periodic meetings with the professor, as well as clear assignments that must be completed during the semester. Students who intend to do independent studies must first consult the graduate coordinator, and secure a formal agreement with the instructor who would be responsible for the independent study.

Graduate students may only repeat courses in which they earned failing grades (C-, D+, D, D- or E). Repeating courses refers only to repetition of the same course where no significant change in content has occurred. It does not include repetition of seminars, special problems, or courses that have a varying content. The grade points from both the first and satisfactory attempts are included in the computation of the grade point average. The student receives credit only when the course is passed. Repeating a course for credit may not be used to resolve an incomplete grade. If enrollment is needed for completion, then auditing the course is the appropriate registration.

The only passing grades for graduate students are A, A-, B+, B, B-, C+, C, and S. B-, C+, and C grades count toward a graduate degree if an equal number of credits in courses numbered 5000 or higher have been earned with grades of B+, A-, and A, respectively. Grade points are not designated for S and U grades; these grades are not used in calculating the grade-point average. All letter-graded courses eligible to count toward the graduate degree, except 1000- and 2000-level courses, are used to calculate the cumulative grade-point average. Letter grades of C-, D+, D, D- or E are not considered passing at the graduate level, although the grade points associated with these letter grades are included in grade point average calculations.

Incomplete grades: Grades of I (incomplete) received during the preceding term will affect your standing in the program, as well as lead to the potential termination of assistantships or other financial support. Thus, they should be removed as soon as possible. Grades of I carry no quality points, and become punitive after 1 term. The Graduate School permits students to carry incompletes into one new semester. If incompletes are not made up during the next semester in residence, they will turn into failing grades. All grades of I must be removed before taking the qualifying exams and before a graduate degree can be awarded.

Transfer of credits: No more than 30 semester credits of a master’s degree from another institution will be transferred to a doctoral program. All courses beyond the master's degree taken at another university to be applied to the Ph.D. degree must be taken at an institution offering the doctoral degree and must be approved for graduate credit by the Graduate School of the University of Florida. All courses to be transferred must be graduate-level, letter-graded with a grade of B or better and must be demonstrated to relate directly to the degree being sought. All such transfer requests must be made by petition of the supervisory committee no later than the third term of Ph.D. study. The total number of credits (including 30 for a prior master's degree) that may be transferred cannot exceed 45, and in all cases the student must complete the qualifying examination at the University of Florida. The Department secretary fills out the transfer of credit form. Graduate students must provide the Department secretary with transcripts from the institution where they received their Master’s degree. The courses must have been taken within 7 years, or a letter is needed petitioning the transfer. The letter needs to cite the relevance of the coursework, if the coursework has changed over the years, and what the student has been doing since taking the coursework.

Post-baccalaureate students or non-degree seeking students may transfer 15 credits of graduate level courses with a B or better towards their M.A. degree. The secretary fills out the transfer of credit form.

All work counted towards the master’s degree must be completed during the seven years immediately preceding the date on which the degree is awarded. For the Ph.D., all work must be completed within five calendar years after the qualifying examination or that examination must be repeated.
XV. Evaluation of Graduate Students for Satisfactory Progress

Each year students are evaluated to determine whether they are making satisfactory progress towards their degree. Except for first-year students who have an assigned mentor, evaluations are completed each spring by the chair of the supervisory committee in consultation with the supervisory committee (if formed) and after speaking with the student about her/his accomplishments and future plans. The supervisory committee chair writes a letter to the graduate coordinator stating whether the student is making satisfactory progress in these areas:

I. Course work: including maintaining a 3.0 GPA; limiting the number of incomplete grades to only 1; taking an adequate number of courses.

II. Supervisory committee composition and meetings: M.A. students by the end of the first year and Ph.D. students by the end of the second year are expected to create a supervisory committee, and to arrange meetings with that committee at least once each year.

III. Progress toward the degree: making progress towards defining their research interests and funding opportunities; fulfilling degree requirements (including language acquisition as negotiated with the supervisory committee); completing qualifying exams; undertaking field research and specialized training; etc.

IV. Professional development: Students are expected to develop papers for presentation at national and international meetings as well as seek to publish their work during their graduate career.

If a lack of progress is indicated on the evaluation, the supervisory committee chair, in consultation with the supervisory committee, graduate coordinator, and the student, should indicate what actions must be taken by the students and the deadline for completing those actions (e.g., within one semester) to avoid sanctions. Failure to meet criteria for satisfactory progress may result in suspension of fellowship and assistantship support as specified by the Graduate School, and dismissal from the graduate program.

Failure to form and maintain a supervisory committee under the guidelines stated in the Graduate Catalog and in the timeframe indicated above shall be considered unsatisfactory progress, and enrollment in the program will normally be terminated by the chair of the department, in consultation with the chair of the supervisory committee and the graduate coordinator.

Retention of Financial Awards: The retention of fellowships and assistantships is predicated on satisfactory academic progress as well as satisfactory performance of assigned tasks. If academic progress is not being made or assigned tasks are not being carried out in a satisfactory manner, the department can and will withdraw an award. Students who earn less than a 3.0 GPA in two consecutive semesters may be terminated from the department’s programs.

Evaluation of Assistantships: One unsatisfactory evaluation will precipitate a stern warning from the graduate coordinator, a supervisory chair, or another designated faculty member. Two unsatisfactory evaluations may result in termination of departmental funding, as determined by the department chair in consultation with the graduate coordinator.

Unsatisfactory Progress: The Department will dismiss from the program students not making satisfactory progress toward a degree. The grounds for dismissal include the following:

1. Failure to establish a supervisory committee with the numbers of faculty members and within the timeframes specified above.
2. Failure to have a program of study approved by the supervisory committee and/or its chairperson.
3. A graduate GPA of less than 3.0 for more than one semester.
4. Failure in two qualifying exams, or a second failure in a single, previously-failed qualifying exam area. In that case, the supervisory committee will assess whether the failed qualifying exam(s) is (are) of sufficient quality to count as the final written and oral examinations for the non-thesis Masters option and, thus, enable the candidate to receive a terminal MA.
5. A determination by a majority vote of the supervisory committee that satisfactory progress has not been made in course work, language acquisition, or toward the successful completion of qualifying exams or dissertation. Students may not re-constitute an established supervisory committee to avoid a negative vote. If a vote is taken but a majority does not vote to dismiss the student from the program, the committee as a whole, or members of it, may advise the student to reconfigure the committee or to consider a voluntary withdrawal from the program.
6. A judgment by the supervisory committee meeting in the final examination that the dissertation is unacceptable.
7. The passage of five years from the date of admission to candidacy without the submission of an acceptable dissertation. (See Graduate School Catalog)
8. A confirmed case of plagiarism or academic dishonesty in any assignment during the course of the program, as determined by the procedure laid out in Section XVI. The chair of the department and/or the graduate coordinator shall inform students in writing when a determination of unsatisfactory progress and a corresponding termination decision has been reached.

Rules on Grades and Dismissal: Grades below “B” in either the M.A. or the Ph.D. program indicate a failure to master material at an acceptable level. One grade less than “B” will precipitate a warning from the graduate coordinator, a supervisory chair, or another designated faculty member. Two grades less than “B” (either in the same semester or in different semesters) constitute
evidence of unsatisfactory progress, and a meeting with the supervisory committee to consider dismissal from the program is in order.

The Graduate School permits students to carry incompletes into one new semester. If incompletes are not made up during the next semester in residence, they will turn into failing grades. A student carrying two or more incompletes at the beginning of the fall semester will, in most cases, lose an assistantship for that semester and will remain ineligible for an assistantship until the incompletes are removed (see also section XIII).

**XVI. ACADEMIC HONESTY**

The religion department expects its graduate students to uphold the highest standards of academic integrity and rigor. Thus, the department takes very seriously any violation of the university’s honor code. The departmental procedure for handling academic dishonesty is as follows:

1. If the instructor finds that there is sufficient evidence that an instance of academic dishonesty has taken place, s/he informs the graduate coordinator of the alleged violation, presenting all the pertinent evidence.
2. The graduate studies coordinator and another faculty member, who is not involved in the case, will review the information before any formal action is taken. This additional faculty member will be selected by the graduate studies coordinator on the basis of his/her area of expertise.
3. If these two faculty members concur that there is enough information to substantiate a violation of the Honor Code, the process established in the Honor Code is followed from that point forward. See Conflict Resolution Committee: https://www.dso.ufl.edu/sccr/conflict-resolution/

Students are strongly advised to be aware of their rights and responsibilities under the University of Florida’s code of conduct:

https://www.dso.ufl.edu/sccr/process/student-rights

Students are also strongly encouraged to familiarize themselves with what counts as honor violations:

https://www.dso.ufl.edu/sccr/process/student-conduct-honor-code/

In particular, students should be thoroughly familiar with the Honor Code’s policies regarding the prohibited use of materials or resources, plagiarism, and the use of fabricated or falsified information. According to the Honor code:

**“Prohibited Use of Materials or Resources.** A student shall not use unauthorized materials or resources in an academic activity. Unauthorized materials or resources shall include:

a. Any paper or project authored by the student and presented by the student for the satisfaction of any academic requirement if the student has previously submitted substantially the same paper or project to satisfy an academic requirement and did not receive express authorization to submit the paper or project.

b. Any materials or resources prepared by another student and used without the student's express consent.

c. Any materials or resources which the faculty member has notified the student in writing are prohibited.

d. If a faculty member has authorized a student to use specified materials or resources, the student shall not exceed that authority. If the student wishes to use any material or resource to which the authority does not plainly extend, the student shall first ascertain whether the use is authorized.

**Plagiarism.** A student shall not represent as his/her own work all or any portion of the work of another person. Plagiarism includes (but is not limited to):

a. Quoting oral or written materials, whether published or unpublished, without proper attribution.

b. Submitting a document or assignment, which in whole or in part is identical or substantially identical to a document or assignment not authored by the student.

c. Downloading material from the Internet and presenting as if it were yours.

**Use of Fabricated or Falsified Information.** A student shall not use or present invented or fabricated information; or falsified research or other findings if the student knows or in the exercise of ordinary care should be aware that the information, research, or other findings have been falsified.

**XVII. Approval of Research Involving Human Subjects**
Who needs IRB approval?
All projects involving human subjects must be reviewed and approved by the University's Institutional Review Board before the planned research may begin. Importantly, faculty and graduate student advisors who assign or supervise research conducted by students, including doctoral and graduate students, are responsible for assuring that all research and dissertation work has been approved by the Institutional Review Board.

IRB01 – Health Science Center
http://irb.ufl.edu/irb01/index.htm
IRB-01 described in this document, functions as the review board for human subjects research conducted by UF Faculty, staff and students, and for the North Florida/South Georgia Veterans Health System (NF/SGVHS), and the institutions owned by Shand’s Teaching Hospital and Clinics, Inc. in accordance with the Memoranda of Understanding signed with those entities.

IRB02 – UF Campus/Non-medical
http://irb.ufl.edu/irb02/index.html
This IRB is responsible for reviewing and monitoring research projects involving human participants conducted by faculty, students, and staff who are NOT employed at the UF Health Science Center, Shands HealthCare, Inc. or the Gainesville VA hospital and will NOT be conducted at those sites.

Animal Use in Research (IACUC Approval)
The use of vertebrate animals in research at the University of Florida (UF) requires registration, review and approval by the Institutional Animal Care and Use Committee (IACUC). The IACUC review and approval is required to ensure compliance with all regulations, policies and standards that protect animal welfare. UF maintains an Animal Welfare Assurance Statement which declares its compliance with various regulations and policies. Failure by any individual to adhere to these standards can jeopardize UF’s entire animal use program. The program is monitored by federal regulatory agencies such as the United States Department of Agriculture (USDA), Animal and Plant Health Inspection Service (APHIS) and the Office of Laboratory Animal Welfare (OLAW) and it is accredited by the Association for the Assessment and Accreditation of Laboratory Animal Care – International (AAALAC-International).

For additional information or to register your research project with the IACUC: http://iacuc.ufl.edu/

XVIII. Preparing for Graduation

Degrees are awarded after each term in December, May, and August. The semester before graduation, the candidate should check his or her file with the department to make sure that all incompletes or other unresolved grades are cleared, grade changes have been recorded (Graduate students must have a GPA at 3.0 or above to graduate), and the supervisory committee form is accurate. Application for the degree must be made online at http://www.registrar.ufl.edu/currents/degreeapp.html early in the semester of graduation by the deadline published in the University Calendar. Application for the degree assures that the student’s name is on the graduation list and includes the application for the diploma, placement of the student’s name in the commencement program, and placement of the name on the list to receive information on commencement procedures, including rental or purchase of regalia. The application to graduate must be made each term a student anticipates graduating. The application does not carry over from a previous semester. Failure to apply for this degree by the published deadline will preclude the student’s graduation in that term. Students must register for at least three credits (two in summer) that count toward the degree during the semester of graduation,
unless all requirements—including the final examination and submission of the corrected thesis or dissertation—have been fulfilled before the first day of classes (see *Clearing Prior). Students on an assistantship, fellowship, or traineeship must be registered appropriately for their appointment. Thesis students must register for 6971 and doctoral students for 7980. Candidates pursuing concurrent degrees need to apply to the Office of the University Registrar for both degrees. Satisfactory performance on the final examination or defense and final submission of the corrected thesis or dissertation must be completed by the deadline dates shown in the University Calendar. Diplomas will not be available until approximately six weeks after Commencement and will be mailed to the graduates’ permanent addresses. Degrees are posted to the student’s transcript approximately four days after graduation.

For the non-thesis master’s degree, a final comprehensive examination (written and oral) must be passed by the candidate. This examination must not be scheduled earlier than the term proceeding the semester in which the degree is to be conferred.

The oral portion of the qualifying examination must be attended, in some way, by the entire supervisory committee (student and chair or co-chair must be physically present; all others may attend remotely). For specific examination requirements, see the individual degree listings in the Graduate Catalog.

*Clearing Prior
Clear Prior exempts students from registering for the term in which their degree will be awarded. Clear Prior is only possible for thesis and dissertation students who have met all published deadlines for the current term but have missed final clearance from the Graduate Editorial Office. **No other students are eligible.** Although not required to register during the term of degree award, students are required to file a new degree application for that term within all published deadlines for doing so, as degree applications do not carry over from semester to semester and are essential for the degree to be awarded.

A student requesting to clear prior must meet ALL of the following criteria:

• Student has successfully submitted a degree application for the current term within the published deadlines, as confirmed by print screen available from ONE.UF.
• Student has appropriately satisfied the current term registration.

• Student has successfully met the current term first submission deadlines for the thesis or dissertation, as confirmed by the Editorial Office via email to the student.
• Student has successfully met all other degree and administrative requirements within the published deadlines for the current term except Final Clearance from the Graduate Editorial Office.
• Student is in the process of finalizing the thesis or dissertation with the Graduate School Editorial Office. No other students are eligible.
• Student has filed a Graduation Date Change Form at the Registrar’s Office by the last day of classes of the current term.

Although a student may have fulfilled academic requirements, the degree is not awarded until the Graduate School certifies the degree to the University Registrar. That is done at the end of Fall, Spring, and Summer C terms for all students who applied to graduate.

XIX. Graduate School Editorial Office

The Editorial Office provides a detailed website http://helpdesk.ufl.edu/application-support-center/graduate-editorial-office/ with information on formatting and checklists to assist graduate students in the preparation of the manuscript. These guidelines offer suggestions and advice on the preparation and reproduction of illustrative materials, the use of copyrighted materials, and the securing of a copyright for a dissertation. The editorial staff examines a limited portion of the final draft and makes recommendations concerning the format of the manuscript before the final submission. The Editorial Office maintains a file of experienced typists and editors whom students may consult. The responsibility for acceptable English in a thesis or dissertation, as well as the originality and quality of the content, lies with the student and the supervisory committee. Students are required to submit their final theses or dissertations electronically.

Before you start writing your thesis or dissertation, learn about the formatting template and find out about technical support from the ETD (Electronic Thesis and Dissertation) Lab https://asc.helpdesk.ufl.edu/ which offers tutorials, workshops, and individual help from ETD technical consultants. For first submission of your thesis or dissertation on paper, they can show you how to fix its formatting before you print it. For final electronic submission, they can show you how to create the final PDF file and input links in it.

*subject to change
Deadlines:
http://helpdesk.ufl.edu/application-support-center/graduate-editorial-office/etd-deadlines/

It is the responsibility of every student to familiarize himself/herself with all deadlines and to comply with crucial deadlines. All master’s theses must be defended before first submission, preferably long before. The thesis must be completely formatted before submitting to the Editorial Office, or it will be rejected. It is not a draft. Allow weeks for the process. All master’s theses must be orally defended before making submission to the Editorial Office. Therefore, the final exam form must be posted to GIMS before an attempt at submission can be made. Additionally, without a degree application in place by the degree application deadline, a submission cannot be made. Promptly contact the Application Support Center [visit Rm 224 Hub, call 392-HELP (Option 5), or email asc-hd@ufl.edu] when you begin writing your thesis and long before submitting the thesis for review by one of our editors.

The Application Support Center (ASC) can help you ensure that you will pass the first submission requirements of the Editorial Office. To streamline the use of UF’s formatting template and for information regarding how to change settings in it to meet with the Editorial Office’s guidelines, please contact the Application Support Center.
https://asc.helpdesk.ufl.edu/about.html

Forms prepared for your defense: Your department’s graduate coordinator designee (or Graduate Secretary) creates the three forms below, from the Graduate Information Management System (GIMS) database. All forms are typically signed at the defense. Your graduate coordinator designee/secretary submits a confirmation of successful completion of these 3 forms electronically through GIMS. If after your defense your committee wants additional changes made to the thesis before publication, your committee may elect to hold the ETD Signature Page until all provisos have been addressed, but, if they elect to do so, a confirmation of completion must be posted to GIMS no later than the Final Clearance Deadline for our office in order for the degree to be awarded—it is the student’s responsibility to ensure that all deficiencies are cleared from his/her EDM Record by the Final Clearance Deadline.

---

**ETD Signature Page:** Your supervisory committee signs at your defense. If your committee wants revisions made to the thesis, your chair (or designee) may hold this form until all stipulations are met. This form must be posted in GIMS by the Final Clearance Deadline Date for the intended term of graduation.

**Final Exam Form:** Your supervisory committee signs. Your graduate coordinator designee submits a confirmation of successful completion of this form electronically through GIMS once you have successfully defended your thesis. You must ensure this has been posted to GIMS prior to submitting your thesis for review.

---

**UF Publishing Agreement:** This form will be signed at your defense by you and your supervisory committee chair. Together, you and your chair will decide on a publication release level (most choose 2-year embargo if planning to publish in a journal; others generally choose immediate). Your graduate coordinator designee will submit this form in tandem with the final exam form through GIMS. It is your responsibility to confirm this data is recorded correctly in the EDM System when you make your final PDF submission of your thesis to our office. By the published deadline http://graduateschool.ufl.edu/about-us/offices/editorial/thesis-and-dissertation/ within your intended term of degree award, YOU MUST SUBMIT A DEGREE APPLICATION. The degree application deadline falls before our submission deadline; therefore, file early, as degree applications cannot be accepted by the Registrar after the late degree application deadline.

---

**Degree application through ONE.UF**: You must submit a degree application online through ONE.UF for the term in which you intend to graduate. This must occur before submitting your thesis for review by the Editorial Office. Degree applications do not carry over from semester to semester. If you have previously submitted a degree application, you must submit a Graduation Date Change Form with the Registrar. It is your responsibility to verify with your department it is on file with the Registrar by the application deadline for the term in which you intend to graduate.

---

**Final Exam date appears in the Graduate Information Management System (GIMS):** Your Graduate Secretary will post electronically after your successful defense.

**Paper items required to make submission to the Editorial Office:** Promptly after your defense, and no later than the submission deadline http://graduateschool.ufl.edu/about-us/offices/editorial/thesis-and-dissertation/, these items should be submitted to Room 224 of the Hub. There, you will find a sign-in/drop-off kiosk for your convenience. Submit items together in an expanding wallet-styled folder. Place a label in the upper left-hand corner of the folder, with your name (last name first) and UFID number on the label.

---

**Thesis:** printed on paper or in pdf electronic format. This document is not a draft; it should be near-final format. It must be completely formatted in order to pass first submission requirements—troubleshoot your document first with ASC (Rm. 224 Hub) to ensure you are not rejected upon first submission. The ASC has developed a tutorial on electronic submission.

---

**Journal article:** an entire sample article from the journal whose reference system you used as a model in formatting your Thesis reference citations and list. **What happens now?**

Next, a charge of $12.80, for the Library Processing Fee, will appear due in your ONE.UF account, and status updates from the Editorial Office will start arriving via
Email. Follow closely, as these will advise you of specifics. You should first receive a system-generated e-mail acknowledging submission of the document. Then, you will be advised, via another e-mail, if you have passed the first submission requirements—if rejected on deadline day, you only have 1 business day to remedy this situation. Finally, within 15 business days, you should receive another e-mail with our recommended changes and directions on moving forward with the final submission.

As soon as your committee is satisfied with your document, work quickly and carefully to achieve Editorial Final Clearance by submitting all submission documents and an acceptable pdf through the EDM System: http://gradschool.ufl.edu/edmportal/gatorlink/EDM_portal.html no later than the Final Submission Deadline. Do not wait until this deadline to submit this document, as there are hundreds of students in this process. Get in the list early. Submit the final document as early in the term as your committee will allow. However, you must submit this document no later than the Final Submission Deadline for the term in which you intend to graduate and you also must achieve final clearance status by the Final Clearance Deadline listed for that term. No exceptions can be granted to these deadlines. If you plan ahead, the ASC can help you during this process—do not consider waiting until the days nearing the deadline to submit your final document for review, as you take the chance of not completing the process on time. These deadlines apply to all thesis and dissertation students. Most students complete all requirements well in advance, in order to ensure they do not face the chance of not graduating in their intended term.

*subject to change

**Deadlines:**
http://helpdesk.ufl.edu/application-support-center/graduate-editoral-office/edt-deadlines/
The dissertation must be completely formatted before submitting to the Editorial Office or it will be rejected. It is not a draft. Allow yourself weeks for the formatting process. Consider defending before you make first submission. Although not required for dissertation students, it is strongly recommended. Promptly contact the Application Support Center [visit Rm 224 Hub, call 392-HELP (Option 5), or e-mail asc-hd@ufl.edu] when you begin writing your dissertation and long before submitting the dissertation for review by one of our editors. The Application Support Center (ASC) can help you ensure that you will pass first submission requirements of the Editorial Office. To streamline the use of UF’s formatting template and for information regarding how to change settings in it to meet with the Graduate School’s guidelines, please contact ASC. https://asc.helpdesk.ufl.edu/about.html

**Required to make submission to the Editorial Office—**
No later than the first submission deadline, these items should be submitted:

--- **Degree application through ONE.UF:** You must submit a degree application online through ONE.UF for the term in which you intend to graduate. This must occur before submitting your dissertation for review by the Editorial Office. Degree applications do not carry over from semester to semester. If you have previously submitted a degree application, you must submit a Graduation Date Change Form with the Registrar. It is your responsibility to verify with your department it is on file with the Registrar by the application deadline for the term in which you intend to graduate.

--- **Transmittal letter from your committee chair:** It is your responsibility to obtain your Committee Chair’s signature on this form. Your department’s graduate coordinator designee (or Graduate Secretary) can print this form for you and must submit this form through GIMS before you attempt to make submission. Please allow adequate time for processing.

--- **Dissertation:** printed on paper or in pdf electronic format. This document is not a draft; it should be near-final format. It must be completely formatted in order to pass first submission requirements—troubleshoot your document first with ASC (Rm. 224 Hub) to ensure you are not rejected upon first submission.

--- **Journal article:** an entire sample article from the journal whose reference system you used as a model in formatting your dissertation reference citations and list.

--- **Forms prepared for your defense:** Your department’s graduate coordinator designee (or Graduate Secretary) creates the four forms below, from the Graduate Information Management System (GIMS). All forms are typically signed at the defense. The Proquest/UMI form is submitted by you directly to our office and the other three are submitted electronically through GIMS by your Graduate Secretary. These three forms remain on file with your department—do not submit the paper forms to the Editorial Office—the data will be sent to us electronically, once posted to GIMS. Postings should appear in the EDM System within 2 business days. However, it is your responsibility to ensure all forms are recorded accurately in the EDM System by the Final Clearance Deadline.

--- **Final Exam Form:** Your supervisory committee signs. Your graduate coordinator designee submits a
confirmation of successful completion of this form electronically through GIMS once you have successfully defended your dissertation. This must be submitted in GIMS as soon as you successfully defend your dissertation—your Graduate Secretary should not hold this form for revisions to your dissertation. If revisions to the document are necessitated, the ETD Signature Page should be held instead.

___ UF Publishing Agreement: This form will be signed at your defense by you and your supervisory committee chair. You two will decide when to release your dissertation. Most choose 2-year embargo if planning to publish their doctoral research in a journal. The majority also elect to release the full dissertation to ProQuest/UMI as well.

___ ETD Signature Page: Your supervisory committee signs at your defense. If your committee wants revisions made to the dissertation, your chair (or designee) may hold this form until all stipulations are met. Your graduate coordinator designee submits a confirmation of successful completion of this form electronically through GIMS once the Committee approves the final dissertation for publication. You should not be submitting your final document for review until this form has been posted to GIMS.

___ ProQuest/UMI Publishing Agreement:
This form will only be printed by your Graduate Secretary and provided to you. You will complete the form and deliver it to our office (Room 224 Hub) immediately after your defense and no later than the Final Submission Deadline. A scan of this form may also be sent electronically. Please do not place any orders for copies using this form. If you elected to send your dissertation to Proquest/UMI for publication, please complete Pages 4 & 5 in full, providing only these pages to our office. If you are not forwarding your dissertation to Proquest/UMI, please complete the entire “abstract only” form provided to you.

What happens now?
A charge of $12.80, for the Library Processing Fee, and a $25 fee for Traditional Publishing with UMI (regardless of whether or not you send the dissertation to UMI for publication) will soon appear due in your ONE.UF account. Status updates from the Editorial Office will arrive in your GatorLink email account in the upcoming business days—follow closely, as they will advise you of specifics. You should receive an auto. e-mail acknowledging submission of the document. Within 2 business days, you will be advised via e-mail if you have passed submission requirements—if rejected, you only have 1 business day to remedy this.

As soon as your committee and you are satisfied with the final document, work quickly and carefully to achieve Editorial Final Clearance by submitting all submission documents and an acceptable pdf document through the EDM System (http://gradschool.ufl.edu/edmportal/EDM.portal) no later than the Final Submission Deadline (http://helpdesk.ufl.edu/application-support-center/graduate-editorial-office/etd-deadlines/). Do not wait until this deadline to submit this document, as there are hundreds of students in this process. Get in the list early. Submit the final document as early in the term as your committee will allow. However, you must submit this document no later than the Final Submission Deadline for the term in which you intend to graduate, and you also must achieve final clearance status by the Final Clearance Deadline (http://helpdesk.ufl.edu/application-support-center/graduate-editorial-office/etd-deadlines/) listed for that term. No exceptions can be granted to these deadlines. If you plan ahead, The ASC can help you during this process—do not consider waiting until the days nearing the deadline to submit your final document for review, as you take the chance of not completing the process on time. These deadlines apply to all thesis and dissertation students. Most students complete all requirements well in advance, in order to ensure they do not face the chance of not graduating in their intended term. Once your pdf has been submitted, please complete the survey below:

___ Survey of Earned Doctorates: Complete the survey at https://sed.norc.org/doctorate/showRegister.do. Keep the confirmation of completion with your permanent records. Check with our office after 3 business days, and certainly before the final clearance deadline, if this remains as a deficiency in the EDM System for you.

Electronic Final Submission

At electronic final submission, all changes to your thesis or dissertation ought to have been made, so the Editorial Office can quickly check the links and accept the ETD. On behalf of the UF Graduate School dean and the UF Libraries system, the Editorial Office makes sure each ETD meets all requirements for archiving, preserving, and publishing. Working together with you, the UF Graduate School Editorial Office helps improve the value of your ETD to you, the University of Florida and the scholarly community at large.

Format Requirements

Click on this link for the format requirements for your thesis or dissertation and other help:
http://helpdesk.ufl.edu/application-support-center/graduate-editorial-office/format-requirements/

XXI. Assistantships, Fellowships, Scholarships, and Other Alternative Sources of Funding

Graduate Assistants
The department awards its most promising M.A. and Ph.D. students financial support in the form of teaching assistantships, research assistantships, Grinter and Alumni fellowships. Outstanding applicants may be nominated for a prestigious Presidential fellowship, which is awarded through a University-wide competition. In addition, students are encouraged to apply for an array of other fellowships. To apply for this financial support fill out the Application for Graduate Fellowship and Assistantship form that can be sent to you in the application materials from the department or downloaded from the Graduate School’s website here.

Assistantships
Teaching Assistantships include waivers of in-state and out-of-state tuition plus a stipend. Research Assistantships are funded by research grants received by members of the department and by programs elsewhere in the University. These assistantships are awarded normally only to students already enrolled at the University of Florida; current students should apply to the research project or individual faculty member holding the research grant.

TA appointments are employment contracts with UF. Graduate assistantship appointments are 9-month appointments: Aug 16–May 15.

As a TA, you will get a tuition waiver by which UF will cover a certain number of credit hours. You will be required to pay some of the fees.

Given the fact that our offerings are very limited during the summer, TA appointments for this period are particularly competitive. The policy of selecting summer TA’s is as follows:
1. All graduate students are eligible, regardless of their number of years they have been funded.
2. Graduate students will be asked who is interested in TA’ing and for what session.
3. Graduate students who have previously received summer funding in excess of $1,000 are excluded.
4. Faculty teaching the summer courses weighs in on their preferences from the available pool.
5. Graduate studies coordinator decides on the appointment after considering all variables.

If you are a TA over the summer, you must take summer classes.
If you are not taking classes, then you CANNOT have a TA appointment.

As a TA, your employment is through Academic Affairs.

Scholarships and Fellowships
The following awards are competitive and the amounts subject to annual adjustment. For a complete description of these and other fellowships plus useful links to other financial aid sources go here.

Alumni Fellows
These are designated every year (the Religion department typically receives one) which provide four years of scholarship support and tuition remission for students who remain in good standing. Most fellows have assistantship responsibilities for 4 of the 8 semesters of their award. These awards involve 12 month contracts and the University expects Alumni fellows to demonstrate high standards of academic achievement and participation.
Grinter Scholarships

These are intended to facilitate recruitment of truly exceptional graduate students. Currently enrolled graduate students are not eligible, except in the particular case in which they are entering a Ph.D. (or other terminal degree) program. Stipends last for three years, with subsequent years contingent upon satisfactory student progress.

Presidential Fellowships

These are sponsored by the Graduate School and named for former University of Florida presidents. They represent a four-year commitment to the student, assuming satisfactory progress toward the degree. The first and fourth years are funded by the Graduate School. The second and third years are funded by the student’s department or college as either an assistantship or a fellowship at the same stipend level as the Graduate School funding. Because nationally competitive stipend levels vary widely across disciplines, the academic units set the stipend level. These fellowships are limited to U.S. citizens or permanent residents who are pursuing a Ph.D. The program is intended primarily to attract outstanding students from across the nation. Applications for students from traditionally underrepresented groups are encouraged.

Wells Fellows

Those receiving special supplemental stipends made possible by private donations to the program.

In addition to the preceding financial aid opportunities, admitted students are also encouraged to apply for other scholarships and fellowships, including the ones listed below:

Title VI—Foreign Language and Area Studies Fellowship

Title VI fellowships are available to graduate students whose academic programs are either Latin America or Africa oriented. Applicants must be U.S. citizens or permanent residents and must be registered for a full-time course load including a language relevant to the area of their choice, specifically, Portuguese or Haitian Creole for recipients through the Center for Latin American Studies; Akan, Arabic, Swahili, or Yoruba for recipients through the Center for African Studies.

The Florida Education Fund (FEF) Awards McKnight Doctoral Fellowships

These awards are for African-American students newly admitted into selected doctoral degree programs at Florida universities. The University provides payment of 12 hours tuition fall and spring and 8 hours summer and will provide continued support for up to two more years, subject to satisfactory progress and availability of funds. African-American U.S. citizens are eligible to receive McKnight Fellowships.

TCD Awards

The Tropical Conservation and Development Program, located in the Center for Latin American Studies, offers graduate fellowships, field training, and grants to qualified students throughout the Americas. TCD has developed a coherent interdisciplinary curriculum of graduate courses available to program participants, as well as research and training opportunities in Latin America. For more information on these and other fellowships contact the Center for Latin American Studies.

All applications for financial assistance, fellowships and assistantships should be addressed to the Department of Religion Graduate Secretary, P.O. Box 117410, University of Florida, Gainesville, FL 32611. The application deadline is January 15.

Medical Benefits and Health Care

The University of Florida provides medical benefits (full or partial depending on the program selected) for full-time assistants and fellows. The University of Florida has a national reputation for excellence and innovation in health care and medical research.

Best Paper and Publication Awards: In the interest of promoting high-level scholarship among our students, every year (toward the end of the Spring semester), there will be a competition to select the best conference paper and the best published essay (whether a journal article or a book chapter). Winners in each of these categories will receive a small stipend. The graduate studies coordinator will organize this competition, selecting a small jury from among the faculty.

External Fellowships

Students are strongly encouraged to be pro-active in seeking and applying for external sources of funding. Information on external fellowships, small grants, and other funding opportunities is available from the UF Office of Research. The COS/Pivot Funding Opportunities database and the Grants database are
XXII. Teaching Assistantships: Responsibilities, Rights, and Resources

Since teaching assistants and instructors represent the department in the classroom, they are expected to uphold the highest level of professionalism, integrity, and rigor, coming to class on time and fully prepared, holding office hours at the appointed time, building a climate conducive to learning during discussion sections and lectures, and more generally, dealing with students in a respectful and fair manner.

In order to provide the necessary tools to be an effective TA and instructor, every year, the department holds a series of workshops on topics as diverse as how to construct a syllabus, how to deal with plagiarism, and how to lead a discussion section. We strongly recommend that you consult the “Graduate Supplemental Booklet,” which was prepared by a former student in our doctoral program and offers helpful pedagogical tips. Moreover, the Graduate School and Teaching Center provides a variety of resources, including workshops on “Improving Your Teaching” and “Using Technology to Enhance Learning,” and a handbook for teaching assistants. See: http://www.teachingcenter.ufl.edu/ta_development.html; and https://www.teachingcenter.ufl.edu/ta_development.html

Evaluations
Every semester you are a TA, the main instructor, or your mentor, or a professor assigned to you by the graduate coordinator will evaluate you. This will be done through a class visit. All evaluations will be placed in your personnel file. Each TA signs the evaluation and has the right to add comments to the supervising faculty’s evaluation. You will be graded as SUPERIOR, SATISFACTORY, or UNSATISFACTORY.

XXIII. Financial Information

Annual Cost Estimates for Graduate Students
http://www.fa.ufl.edu/bursar/current-students/  (*subject to change)

Tuition Waivers
Every semester you must sign a Letter of Appointment (not the same as a Letter of Offer). Stop by 107 Anderson to sign the Letter of Appointment. For the purpose of TUITION WAIVERS only, you will be considered an in-state Florida resident. To receive a Graduate Tuition Payment a student must 1) be admitted and enrolled in a graduate program at the University of Florida, 2) maintain a GPA of 3.00 (truncated) or have a petition approved by his/her adviser, the associate dean of the college, and the Graduate School, and 3) be registered for the number of credits required for the appointment. Waivers for tuition: 9 credits for Fall and 9 credits for Spring for Grad Assts; 12 credits for Fall, 12 credits for Spring, and 8 credits for Summer for Graduate Awards. These credits must count toward the degree and do not include audited courses, correspondence work, DOCE courses, or courses designated as “self-funded” by the registrar.

Deadlines
You MUST pay your portion of the fees by the established deadline—or you will be charged a late fee.

TA’s/RA’s/Alumni are given fee deferments.

XXIV. Health Insurance Benefits

All Graduate Students appointed at an FTE of minimum 0.25 and enrolled in a graduate degree program, are eligible to a subsidy for health insurance. Graduate students on a Pre-Doc Fellowship and appropriately registered are eligible for health insurance benefits. Any additional costs of premium will be paid by student, via payroll deduction.

To enroll, go to http://www.hr.ufl.edu/benefits/gatorgradcare/#enrollment.

A brochure and other related information can be found on...
the Human Resource Services website:
http://www.hr.ufl.edu/benefits/gatorgradcare/

XXV. Employment at UF

As a student at the University of Florida, there are several forms of employment.

- Graduate Awards: paid on a bi-weekly rate.
- Assistantship: paid on a bi-weekly rate, according to the contract.
- Other Personnel Services (OPS): paid on an hourly rate.

Required Paperwork

For a New¹ International Employee Hire Please Provide the Following:
- Make an appointment with Shared Services in Rolfs Hall 352-273-1809
- Letter of Appointment/Offer Letter
- Fellowship Memorandum of Understanding
- Demographic Form
- Windstar Packet
- Copy of U.S. Visa; I-94 Form (front and back); I-20, DS-2019 or I-797; Social Security Card, I-9 Form
- Current non ufl.edu email address

For a New¹ Domestic Employee Hire Please Provide the Following:
- Letter of Appointment/Offer Letter
- Fellowship Memorandum of Understanding
- OPS Employment Form
- Current non ufl.edu email address
- Copies of driver’s license and social security card
- Notarized Loyalty of Oath Form

Dates of Appointment (Employment)

- 9-month graduate student (19.5 pay periods)
- 12-month fellowship (26.6 pay periods)

Appointment dates of your employment do NOT coincide with class schedule.

Paychecks are issued on a bi-weekly basis.

Work week begins on Friday and ends the following Thursday.

XXVI. Florida Residency

http://www.admissions.ufl.edu/residency.html

Residency for Tuition Purposes
Qualifying for In-State Residency
http://www.admissions.ufl.edu/residency/qualifying.html
What is a dependent student?
http://www.admissions.ufl.edu/residency/dependent.html
What is an independent student?
http://www.admissions.ufl.edu/residency/independent.html
What are the exceptions?
http://www.admissions.ufl.edu/residency/exception.html

Residency refers to whether you are an in-state Florida resident or an out-of-state resident, and this classification determines your rate of tuition. Florida residents pay less in fees per credit hour than do non-Florida residents.

Florida state statute Section 1009.21 defines the requirements for in-state status. Generally a person is considered a Florida resident for the purpose of paying taxes, voting, or other legal purposes after residing in the state for a designated length of time.

However, state statute specifies additional requirements for a student to be classified as an in-state resident for tuition purposes. Most importantly: Living in or attending school in Florida will not, in itself, establish legal residence for tuition purposes.

Your initial residency classification http://www.admissions.ufl.edu/pdf/residency.pdf is determined by the Office of Admissions when you apply to the university. Failure to provide all relevant information and required documentation in the residency section of the admission application could result in a non-
Florida or out-of-state resident classification for tuition purposes. You have until the last day of classes in your first term to request the Office of Admissions to re-evaluate your residency status by providing additional documentation not submitted previously.

**XXVII. Travel**

**CLAS Travel Form**
http://web.clas.ufl.edu/forms/travel_grad.pdf

If the Department of Religion or the College has offered to pay any part of your travel, then you must remember the following:

**Travel Authorizations**
- Are required for travel to conventions, conferences, workshops, seminars, and all foreign travel.
- Must be filed before you leave on your trip.
- Agree with your Supervisor/Chair on which expenses you will be expected to cover and which expenses will be paid by the Department.
- Always have commitment in writing (and copy the secretary on the email).
- Let the Secretary know what the source of funding will be (CLAS travel, a grant, dept., etc.).
- The Shared Services (CLAS) will process the Travel Authorization on your behalf.

Complete online TA -

[https://support.ssc.clas.ufl.edu/index.php/?Default](https://support.ssc.clas.ufl.edu/index.php/?Default)

- Information required for Travel Authorization:
  - Purpose of trip (be specific; example: research on the subject of ___; present a paper on ___).
  - Benefit of trip to UF
  - Exact dates of travel, final destination, estimate costs.
  - If you already have airline reservation, provide exact $ figure.
  - If the Department has agreed to pay a certain amount, please indicate so, and the chartfield.
  - If going to a convention/workshop/meeting, attach copy of the program.

**Travel Expense Reports**
-- Travel Expense Reports should be filed immediately after return from trip.
-- Save receipts / invoices for everything (ORIGINALS, please). Reservations emails are NOT valid.
-- Include a copy of the program of the conference you attend and especially if you will be presenting any work.

-- You must submit a copy of your e-ticket or document with actual ticket number (not just the quote).
-- Your Supervisor and/or Department will determine what expenses will be reimbursed on your travel.
-- You must sign the Travel Expense Report for it to be submitted to Travel Office.

**XXVIII. Graduate Student Resources**

**Graduate School website**
The Graduate School maintains a website for current students at [http://gradschool.ufl.edu](http://gradschool.ufl.edu). This website contains information about important deadlines, grants and fellowships, workshops, and other items relevant to graduate education. Students will be held responsible for procedures and deadlines that are published through this website.

**Student Self Service (ONE.UF)**
The Office of the Registrar provides ONE.UF as a central location for many academic services and student resources. Please become familiar with the elements, including access to the Graduate Catalog, GIMS, your transcript, grades, registration, etc. Be advised that some of the items in ONE.UF are for undergraduates.

**Graduate Information Management System (GIMS)**
The Graduate School maintains a database which captures key elements of graduate students’ progress through their degree program. Students are expected to review this read-only data a minimum of twice each semester. The first review should be two weeks after drop-add, to make sure their demographic information is pulling correctly from the university directory. At the end of each semester, students should review GIMS to make sure all degree program changes and/or milestones achieved in that term have been properly recorded. Prudent students will carefully review their GIMS’ record any time a milestone has reached. During the final term, students must be certain that all necessary GIMS data is entered on time to meet the deadlines posted in the graduate calendar. Failure to meet any deadline will result in delay of degree award to a future term.

**Graduate Student E-mail Listserv**
UF business email addresses; this listing generally corresponds to a student’s GatorLink account. Students must establish a Gatorlink account and must check it regularly. In order to set up the required GatorLink account, one should visit their website at http://www.gatorlink.ufl.edu. The Graduate School cannot maintain personal email addresses.

The UF business email addresses of all currently enrolled graduate students are automatically added to the Graduate School’s Graduate Student listserv. A student cannot opt out of receiving these messages. Messages contain time-sensitive information about important deadlines. An archive of messages is available at http://lists.ufl.edu/archives/gradstudent-l.html.

Religion Graduate Students’ Association
The association’s primary purpose is to form camaraderie and solidarity amongst Department of Religion graduate students. It will also allow for a space outside of class for students interested in the academic study of religion to discuss topics of academic interest; aid in processes that accompany the academic study of religion, i.e. exams, theses, dissertations; preparation for careers in the academic study of religion; support and discussion concerning participation in academic conferences; as well as provide vocal support for students. The RGSA board consists of five positions which are elected annually: president, vice president, secretary, treasurer, and graduate liaison. The graduate student representative will be invited to faculty meetings; s/he will participate in a non-voting capacity until sensitive or personnel issues are discussed. The agenda for the meetings will be set up in such a way that these sensitive and personnel matters will be left for the last part of the meetings. The student representative will be elected through a democratic process by the RGSA and will commit to serve for an academic year. S/he will have the right to propose issues for discussion on the agenda, provided that s/he informs the chair at least a week before the meeting.

Graduate Student Council
The Graduate Student Council was formed in 1989 to foster interaction among graduate students on campus and to provide an agency for coordinating graduate student activities and programs. The GSC seeks the improvement of graduate student education through active and permanent communication with the Graduate School, the University administration, and the University of Florida Board of Trustees. It also represents the interests of graduate students at the student government, administration, local, state, and national levels. GSC is a dues-paying member of the National Association of Graduate and Professional Students.

Graduate Assistants United
Graduate Assistants United (GAU) represents graduate assistants in collective bargaining with respect to wages, credits, and other conditions of employment. GAU also serves as advocate for graduate assistants with employment grievances, publishes a newsletter, provides an email list, and organizes social events. The GAU includes the GAU Women’s Council. Call 392-0274.

Office of the University Ombuds
The Office of the University Ombuds was established by the state legislature and reports through the Provost to the President. The Office helps students resolve problems and conflicts. It offers an informal avenue of redress for students’ problems and grievances that arise in the course of interacting with the institution. By considering the problems in an unbiased way, the Ombuds works to achieve a fair resolution and works to protect the rights of all involved parties.

Resolving student academic issues: The Office of the Ombuds deals with student concerns of an academic nature. Students must first contact the instructor, the academic unit chair, and the college dean before seeking help from the Ombuds, although instances do exist where contact with the University Ombuds first is beneficial.

Resolving student non-academic issues: In many instances, non-academic issues can be easily and readily resolved for students merely by facilitating direct communication and effective listening. For other problems not related to academic issues, the Office of the Ombuds helps students contact the appropriate campus office for dealing with their problems.

For more information, visit http://www.ombuds.ufl.edu/.

Student Government
Student Government (SG) comprises the executive, legislative, and judicial branches. The Graduate-Professional Student Affairs cabinet post, part of the executive branch, works to help SG properly identify and respond to the unique concerns of graduate students. The cabinet officer works closely with graduate student organizations and the Graduate Student Council to enhance their programs. This position allows graduate students to take an active role in the decision-making process of SG. The director of Graduate Student Affairs also organizes the annual Graduate Student Appreciation Week, held each Spring semester. For more information, call 392-1665 or visit the website at http://www.sg.ufl.edu/. Graduate students participate in the legislative portion of SG by annually electing three graduate students to serve in the SG Senate. These three senators attend Senate meetings and vote on legislation. Selected other SG cabinets include Academic Affairs, Advertising, Career Development, Community Involvement, Community-Political Affairs, Disability Affairs, Health, Housing, Internal Communications, LGBTQ Affairs, Multicultural Affairs, Public Relations/Publicity, Research, Satellite Campus Affairs, Student Organizational Outreach, Technology, and Women’s Affairs.

Workshops for Teaching Assistants
The Graduate School and the Office of Academic Technology offer an orientation and a series of workshops for teaching assistants who want to improve their instructional skills. The orientation and the "getting started" workshop are mandatory for all who are beginning teaching assignments. The website for teaching assistants is http://www.teachingcenter.ufl.edu/ta_development.html

Teaching assistants may take all 10 workshops, or they may select the most pertinent ones for their assignments. Among the materials covered are presentation skills, course and lecture planning, techniques for improved student motivation and attention, group dynamics, testing and grading, and how to elicit and interpret feedback. Participants may request videotaping of their classroom presentations and student feedback on strengths and weaknesses. To sign up or for more information, call Dr. Winifred Cooke at the AT Teaching Center, 392-2010, or drop by the office on the ground level, Southwest Broward Hall. Teaching at the University of Florida: A Handbook for Teaching Assistants is available online at https://www.teachingcenter.ufl.edu/ta_development.html

EXCEL Newsletter
EXCEL, a Graduate School publication, is published each spring. The newsletter features graduate students and their research, the winners of the Doctoral Dissertation Mentoring Awards, plus alumni who are now doing interesting work.

University Libraries
The library system consists of three central units—Library West, Smathers Library (Library East), Marston Science Library—and branch libraries in the Colleges of Design, Construction, and Planning; Fine Arts; Education; Journalism and Communications; Law; the Department of Music; and the J. Hillis Miller Health Science Center. Orientation tours of the main libraries are scheduled at the beginning of each semester. LUIS (Library User Information Service) terminals in each library provide computerized access to the collection. The entire sixth floor of Library West is reserved exclusively for graduate student use. See the library website at http://www.uflib.ufl.edu/

University Counseling Center
The Counseling and Wellness Center (CWC) offers services to currently enrolled graduate students for personal and educational concerns. Graduate students who are not currently registered may be eligible to pay an off semester fee for services (please inquire for details). Professional counselors offer short-term individual, couples, and group counseling. There is no charge for the Center’s confidential services. Topics of services for graduate students often include help with concerns related to academic success, time and stress management skills, anxiety and depression, personal and family relationships, adjustment to the culture, and other issues associated with transition.

Counseling and Wellness Center clinicians also provide a range of consultation and outreach programs to the campus community. Phone or in-person consultation is available for students, parents, faculty, and staff regarding any issues related to student development. The CWC clinicians serve as program resources for a wide variety of student organizations and academic departments. The Center has an extensive training program for selected graduate students. The clinical staff teaches undergraduate and graduate courses in the Departments of Psychology and Counselor Education and guest lecture on a variety of psychological and wellness topics.

All CWC activities are conducted with sensitivity to the diversity of the students on a large, multicultural campus.

For more information, visit the website at http://www.counseling.ufl.edu/cwc/

Student Health Care Center
The Student Health Care Center (SHCC) is an accredited outpatient clinic offering a wide variety student-focused services, including: General Medical Care/Primary Care; Health Counseling; Immunizations (seasonal flu shots, vaccinations for travel, etc.); Lab and X-ray/EKG Services; Pharmacy and Mini Drug Store; Sexual Health Services; Allergy Injection Clinic; Nutrition Services; Physical Therapy (operated by UF Health Rehab Services); Sports Medicine Clinic; and Women’s Clinic.

Students are encouraged to view an introductory video and review basic information about the SHCC by visiting http://shcc.ufl.edu/new-students. Call before coming for same-day appointment availability (main phone: 352-392-1161), or schedule visits more than 24 hours out via phone or online at https://my.shcc.ufl.edu. PLEASE NOTE: Call your team or specialty clinic directly to cancel or cancel online at least 24 hours out to avoid a no-show fee.

The health fee, paid as part of tuition, helps pay for basic evaluations, but does not cover all possible charges at the SHCC. Patients are financially responsible for items including, but not limited to: physicals; procedures; X-rays; lab tests; medications; medical equipment; and physical therapy. Private health insurance plans are accepted for payment of covered services, so be sure to bring all health insurance information to your first appointment. For more information about charges, billing and health insurance, please visit http://shcc.ufl.edu/fees-and-insurance.

The SHCC is proceeding with the Mandatory Health Insurance requirement as an Opt Out system where students who don’t opt out by providing documentation of adequate health insurance will be automatically enrolled in the school-sponsored plan. They may either purchase outside health insurance that meets the requirements for comparable coverage or they can be auto-enrolled in the school-sponsored plan. Students will be auto-enrolled in the school sponsored Student Health Insurance Plan.

If a student currently has insurance, they will be required to review their insurance coverage and check that
it meets the requirements set forth as comparable coverage. They will then need to submit their policy information online for verification by the end of drop/add but ideally much earlier. The charge for the school-sponsored Student Health Insurance Plan will be removed once submission is completed and verified. Health insurance information can be submitted at http://studentinsurance.shcc.ufl.edu. Once verified, the waiver is good for one year. Waivers must be submitted PRIOR to the deadline in order for charges to be removed.

More information including insurance coverage guidelines, frequently asked questions, how to submit one’s insurance information and more, can be found at http://studentinsurance.shcc.ufl.edu.

**Web Pages And Email Listserves**

Information is published online for graduate students at http://my.ufl.edu by Student Services and the Graduate School. This website contains information about important deadlines, grants and fellowships, workshops, and other items relevant to graduate education. Students will be held responsible for procedures, and deadlines that are published through this website.

The Graduate School maintains a website for current students at http://graduateschool.ufl.edu/ that provides useful information and online forms.

**XXIX. English for International Students**

The University of Florida makes available English language programs to help international graduate students improve their proficiency in English. These programs are 1) the English Language Institute, 2) Academic Written English, and 3) Academic Spoken English.

Applicants whose command of English is not as good as expected may be requested by their departments to attend the English Language Institute (ELI), an intensive English program designed to provide rapid gain in English proficiency. An ELI student may require one, two, or occasionally three semesters of full-time English study before entering Graduate School. Information about ELI is available in 315 Norman Hall. The Academic Written English (AWE) program is designed to help foreign graduate students improve their writing ability. Applicants whose verbal GRE scores are below 320, or students who have been admitted provisionally with a score lower than required on a TOEFL (550 paper, 210 computer, 80 web), IELTS (6), or MELAB (77), may be required to take a writing test. Those demonstrating a lower proficiency than needed for successful performance in written tasks as determined by their academic unit may be required to take courses in written English. Information about the AWE program is available at the coordinator’s office, 4131 Turlington Hall, telephone (352) 392-0639.

The Academic Spoken English (ASE) program is designed to help those students who expect to be Graduate Teaching Assistants at the University of Florida but who cannot demonstrate a high enough proficiency in English. Students who must raise speaking proficiency scores are advised to take EAP 5835, a course to improve general oral language skills. Information about AE can be found at http://ase.ufl.edu/

**XXX. Academic And Administration Petitions**

Administrative, academic, and registration petitions will be approved by the Graduate School only for mitigating circumstances. Such petitions must be initiated by the department and must be endorsed by the student’s supervisory committee chair, graduate coordinator, or department chair, and, the Graduate Dean of Liberal Arts & Sciences.

Petitions will be made out to:

Dr. Henry Frierson

Dean of Graduate School
164 Griner Hall, P.O. Box 115500.

From:

Name of Graduate Coordinator
Graduate Coordinator, Department of Religion –and
Name of Associate Dean for Graduate Affairs, College of Liberal Arts & Sciences
The Petition should include the student name, their UFID number (i.e., 1814-3056), status (i.e., 8LS PhD student), clearly state the policy you are petitioning, and, finally, explain the situation about why the student should have an exemption.

XXXI. DEPARTMENT PROCEDURES AND RESOURCES

Use of Conference Room / Break Room
Make reservations for the use of conference room through Annie (Dept. Senior Secretary). Use refrigerator, microwave, coffee pot, etc. Please clean up after using. Turn off lights and lock door when leaving.

Access To Offices
Each Grad-TA will receive keys to access their office space, conference room, and the Reception area of the Department (mailboxes, copier, fax). If you need a key to the shower room, please request one from the Secretary. Keys are NEVER to be duplicated or to be used by anyone else, other than the person to whom the key has been assigned. Turn off lights when leaving. Make sure all doors are locked when you leave.

Use of Copier
It is available to use at Religion’s main office for teaching purposes only. Do not use for personal copying or copying of your own coursework.

Use of FAX Machine
The Department’s fax machine is available to use at Religion’s main office for UF-related business.

Computers
Each graduate student office/lounge has several computers available to use. Please do not use / download inappropriate material. Only Clasnet can install software. Let the Secretary know what software you need installed, and she will submit a service request to Clasnet. If you need help or require more information on computer how-to’s and the College of Liberal Arts & Sciences computer related policies, please refer to CLAS’ website http://www.clasnet.ufl.edu.

Email Accounts
As of Fall 09, incoming graduate students do not have CLAS email accounts. Their Office 365(GatorCloud) email accounts will be their only UF email account.

Phone System
To Dial Out: Toll-free calls: 9-1-800xxx-xxxx
