Course Description:

Islam is said to be the fastest growing religion in the world including here in the United States and in Canada. Muslim sources say that the number of Muslim adherents in the U.S. number from six to eight million¹, making it the third largest religion in the US. However, a Pew Foundation estimate in 2017 said that there were 3.45 million Muslims in the U.S., about 1.1% of the total U.S. population. By 2040, PEW demographers project that the Muslim population will be around 8.1 million and will be the second largest religion in the U.S. outstripping the American Jewish population. The latest figures for the Muslim population in Canada are from 2011, when they numbered, 1,053,945 or about 3.2% of the population, making Islam the second largest religion after Christianity. Muslims make up 7% of the population in Greater Toronto and 6% in Montreal, the two largest cities in the country.

Islam is also growing in the Southern Hemisphere – Latin and South America as well as in the Caribbean. There is now a good deal of information on Islam in the Caribbean and in South America that we will draw upon in our work this semester. One source, states that the number of Muslims in Latin America number over four million.² Islam entered the Americas largely through enslaved persons brought to the New World by the Spanish.

¹ The figure has been recently contested by the PEW Research Center, which in the spring of 2007 completed one of the largest studies of American Muslims ever done. Pew says that the number of Muslims in the US is closer to two million, plus. U.S. based Muslim demographers hotly dispute the Pew Research Center's findings. At this point we do not really know how many Muslims there are in the U.S.

² This statistic comes from, Muhammad Yusef Hallar's book, Muslims in Latin America, found at www.islamawareness.net/Latin America/adosimpo.html

In this Course we will begin with a brief overview of Islam – the history of the religion, the fundamentals of the faith as well as the primary texts, the *Qur'an*, the *Hadith* and Islam's legal system – the *Shari'ah*. We will also touch on the religion's phenomenal spread from Arabia, throughout the Middle East and parts of Asia into Europe itself from the 7th through the 13th centuries. Then we will turn our attention to the study of *Islam in the Americas*, from its beginnings as the religion of significant numbers of enslaved and free Moors and Africans who came or were brought to the Americas (North and South) in the 15th century, until the spread of the religion in the Americas today. This phenomenal rise of Islam here in the U.S. and Canada in the 20 & 21st centuries and in the Southern Hemisphere will be our primary focus in this class. This course is interdisciplinary in that we will use history, religious studies, cultural, and women studies in our effort to map Islam in the Americas over the last six centuries.

Requirements: This is a reading intensive and research course. Some of your work will be done in small research groups focused on a topic you will select by the 3rd week of class and continue working on throughout the term.

- 1) Attendance and **active** participation in your group and class discussion will count for **10% of your grade**. Roll will be taken at each class after the first one. You are permitted three unexcused absences, after which your grade will be negatively impacted by additional unexcused absences. Such absences after the first three will lower your cumulative grade by 2 grade points. To be chronically late for class will also negatively impact your grade and can count as absences too. Leaving the class before it ends without cause and without notifying me in advance can be counted as an absence also. Therefore please let me know in advance if you will be late (and the reason) or if you need to leave class early for a legitimate reason. Please inform me in writing via e-mail.
- 2) **Six Reaction Papers** to assigned readings (8 page minimum) will be written during the course of the term (Reports on these readings will be made in class by an assigned person in each class and along with the instructor's comments on the readings will serve as the basis for our weekly discussions). A sign up sheet for these reaction papers and presentations will be circulated at the 2nd meeting of this class.) The four reaction papers will count for **25% of your grade**.
- 3) **Small Group Projects**. Each student will participate in a small (2 or more persons) research projects on *Islam in a particular country in the Americas: 1) the U.S. & Canada; 2) Trinidad & Tobago; 3) Mexico; 4) Brazil; 5) Guyana; 6) Puerto Rico etc.* (This group will map and monitor these countries; the Muslim organizations within them, any publications, websites, etc. Each group will make periodic reports in class on your findings. The groups are to forward interesting info to me for posting on our Canvas site or to be sent by e-mail via the class' list serve.) If you have an idea for another group topic and there is interest, it can be added to the list.

Each group will prepare an **in depth final written report** at the end of the term on their topic with **each member of the group being responsible for writing some specific subset of the overall project, (20 pages minimum) which will be written as a separate stand alone paper and graded**. Alternatively, as a Graduate Student, you may have a specific project that you are interested in researching and writing about. In either

case, it is hoped that your Research Paper will be written with possible publication in mind.

The group will make an oral presentation on your research at the Mid-Point of the Term and at the End of the Term with a written synopsis of your research to be distributed to the class at the time of the groups' oral presentations. Everyone will be asked to sign up for one of the groups by the 3rd meeting of the class and to hold the first meeting of the group at that time.

At this meeting, members of each group will exchange telephone numbers, e-mail addresses or other forms of communication as each group will need to meet periodically and to communicate regularly. I am to be included in your group on-line communications about your work and will rotate among your groups during your in class meetings. Also the groups will occasionally be given time to meet during class time. This project (the research, individual written segments {20pgs minimum}, oral presentation with handout) will count for - **40% -(a substantial portion of your grade) in this class**

- 4) **A written 7 page (minimum) book report** is to be written by each grad student on a book to be selected based on your Research Project. I will supply a Book List early in the semester from which you might want to select a title. It will be helpful to select a book that relates to your group topic. You may also select a book not on the list I will share with you. Again it will be helpful to you if that book relates to your final research project. All book titles are to be submitted to me (full citations please!) for approval. Additionally, an oral presentation {with a minimum two-page synopsis of the book review to be distributed to the class at the time of your oral presentation} is to be made. Guidelines for the book report plus the list of books to select from will be e-mailed to each of you. The written book report plus your oral presentation with synopsis for the class will count for **15% of your class grade.**
- 5). **Class Trip or Event.** Students are to attend an Islamic event during the fall term. It can be the Juma' (Friday prayer service) or one of the teacher approved events on campus that will be organized by the *Islam on Campus* or the Center for Global Islam or other organizations. We will talk about going to the Juma' prayers, and other possible events that we can do as a class or as portions of the class together later into the semester.. More about possible events and their dates will be distributed when this information becomes available. This trip or attendance at an event will count for **10%of your class grade.**

In Summary, Grades will be based on the following:

- 1) Attendance and active participation in your group and class discussion. **10%**
- 2) Six Reaction Papers (8 page minimum) during the term, which each student will be asked to present at least once aloud in class. These four papers will be turned in for grading. **25%**
- 3) Small group project on a selected title with each member having a specific component or a research project of your choice on which to write a 20 pg (minimum) paper and make oral presentation in class. **40%**
- 4) Book Report (10-12 pp) on book plus oral presentation with three page synopsis for distribution to the class. **15%**

- 5) Class trip to an Islamic event **10%**.

REQUIRED TEXTBOOKS FOR THE CLASS

Required texts are available at the UF Bookstore. You may want to purchase them on line as they are sometimes much cheaper even than the used books at the book store.
